**Re: Hog Creek Wind Farm LLC,
Case Nos. 09-277-EL-BGN and 10-654-EL-BGN**

Dear Ms. McNeal:

On March 22, 2010, the Ohio Power Siting Board ("OPBS") issued Hog Creek Wind Farm LLC ("Hog Creek") a Certificate of Environmental Compatibility and Public Need in Case No. 09-277-EL-BGN for Hog Creek I ("Hog Creek I"). On August 29, 2011, the OPSB issued a Certificate of Environmental Compatibility and Public Need in Case No. 10-654-EL-BGN for Hog Creek II ("Hog Creek II"). The orders in each of the cases established a set of conditions as part of the certificates.

Within these sets of conditions, Hog Creek I **Condition No. 44** and Hog Creek II **Condition No. 58** require that:

As the information becomes known, the Applicant shall provide Staff the date on which construction will begin, the date on which construction was completed, and the date on which the facility begins commercial operation.

Hog Creek held a preconstruction conference on December 5, 2016 with the OPSB Staff. At the conference, construction-related issues for the excavation at seven turbine site Nos. 15, 16, 18, 20, 21, 22, and 23 were satisfactorily addressed including all conditions of the Certificate. All preconstruction commitments/conditions were submitted to Staff as previously docketed.

In compliance with Certificate Condition Nos. 44 and 58, the excavation at the seven turbine sites was completed by December 23, 2016. If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
