Nick,

I am currently reviewing your application for natural gas supplier certification in Ohio and found a potential problem in the application. My review is limited to Sections A, B & D of the application while Section C is reviewed by other staff. Staff reviewing the other section may contact you if the information provided does not satisfy the application certification requirements.

The potential problem is with Exhibit A-3 – “Applicant information under which applicant will do business in Ohio”. The application lists InCorp Services, Inc. which generally functions as a registered agent in Ohio and is otherwise unaffiliated with New Wave Energy. The purpose of Exhibit A-3 is for the use of a company “dba” in case the name of the applicant’s company doing business in Ohio is different than the applicant’s legal name and address supplied in Exhibit A-2. If there is no “dba” and the name of the company operating in Ohio will be New Wave Energy Corp then the response to A-3 will be identical to A-2. Please revise the response to A-3 to reflect the applicant’s name doing business in Ohio. Please send the revised page directly to the docketing division (not to me) along with a brief cover letter explaining the filing. Please include your case number, 17-0060-GA-CRS on all documents sent to docketing.

Thank You,

**Bill Haiker**
