Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Madeira and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

Dear Friends,

I am writing to ask you to oppose the proposed path of the Duke Energy natural gas pipeline. The proposed path takes the pipeline 157 feet from the back of my house.

Obviously the construction process would be disruptive and unhealthy, but there are clear safety risks to those of us living so closed to the proposed line. There are also numerous churches, schools and daycare centers located near the proposed path.

Please oppose this pipeline as strenuously as you can. Our community doesn't need this danger.

Thank you,

Ted Nelson

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Theodore Nelson
