

Ohio Certified Solar Facility Update Form

Use this form to provide updated information for facilities that have been certified in Ohio. For new applications use the online application.

Case No.: 14-1223-EL-REN

G.3. Please submit digital photographs that depict an accurate characterization of the renewable generating facility. Please indicate the date(s) the photographs were taken . For existing facilities, these photographs must be submitted for your application to be reviewed. For proposed facilities or those under construction, photographs will be required to be filed within 30 days of the on-line date of the facility.			
G.4 SOLAR PHOTOVOLT	AIC (total and specification	ons for the expansion only)	
G.4a Location of the PV a G.4b Total number of Mo	array: <u>X</u> Roof Groun odules:_414	d Other	
G.4.1 PV Modules			
For each PV module, pro	vide the following inform	ation:	
	_Canadian Solar g: _CS6X-320P		
I. Facility Information			
I.a The nameplate capac size)	ity of the entire facility in	megawatts (MW):26723 (ne	w total system
1.1 For each generating u	ınit, provide the following	g information: (first row is for original sy	ystem, 2 nd and
3 rd rows for expansions)			
Unit In-Service Date	Capacity (MW)	Annual Generation (MWh)	
3-21-14	.13475	1:1	
7-1-2016	.13248	1:1	

If a new meter(s) has been installed update this section as well. If the expansion causes the facility to have a nameplate capacity over 6 kW the facility will need a utility grade meter if it does not already utilize one.

N. Meter Specifications

Metering Requirements

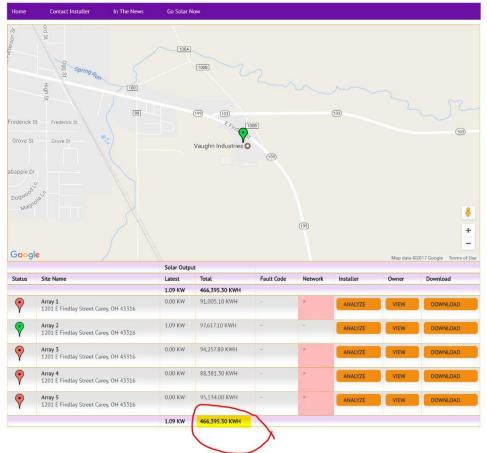

If the renewable energy resource generating facility is 6 kW or below, the output may be measured with either an inverter meter or a utility grade meter.

All facilities that are larger than 6 kW must measure the output of the facility with a utility grade meter. Facilities that are larger than 6 kW and that are not measuring output with a utility grade meter will not be certified. $OAC\ 4901:1-40-04\ (D)(1)$

Please only report on the meter or the meters used to measure the output from the facility which will be
reported to the attribute tracking system.
N.a The meter(s) that are measuring output from the facility are:
Inverter Meter(s)
_X Utility Grade Meter(s)
N.1 Please provide the following information for each meter used in your system.
N.1.a Manufacturer: _Watts On
N.1.b Serial Number: _ 00:80:A3:91:48:DA , 00:80:A3:91:4D:02 , 00:80:A3:91:4C:EE , 00:80:A3:91:4C:FD ,
00:80:A3:91:48:EC
N.1.c Type: _ MS160-50A
N.1.d Date of Last Certification: _3-21-2014
Attach a photograph of the meter(s) with date image taken. The meter reading(s) must be clearly visible
in the photograph.
N.1.e Report the total meter reading number at the time the photograph was taken and specify the
appropriate unit of generation (e.g., kWh):466,395.30 kWh
Date photograph taken: 1-31-2017
INSERT PHOTOGRAPH(S)
