Good Morning,

I'm writing in support of the Icebreaker wind project. Ohio needs to continue to invest in clean energy solutions for the future.

Thank you for your time,

Sarah Rudyk

Subject: LAKE ERIE WIND FARM

I am writing to express my enthusiastic support for the proposed Lake Erie wind farm. We have to wean ourselves from fossil fuels. Having lived in Shaker Heights since 1984, I have seen dangerous conditions force First Energy to shut down both of its nuclear power plants (East and West of Cleveland). In more than one of these shutdowns, the conditions that forced the shutdowns were discovered, not by First Energy, but by other parties. I also saw First Energy cause the Northeast blackout. Its only important (for them) response was to throw a fundraiser that raised half a million dollars for a Bush election.

I want to see diverse sources of energy, and I want to see us lose our dependence on a corporate source that I view as dishonest and careless with public safety.

Tom

Subject: Support for LEEDCo/ Icebreaker site

Hi,

I am writing in support of the Lake Erie Energy Development Company's proposed site for the Icebreaker offshore wind power demonstration project on Lake Erie.

I feel this site has been extensively studied and the potential risks to birds and bats have been well thought out. Once the turbines are deployed the monitoring of the area to determine actual effects on migratory birds and bats will be extensive and will show if the eventual large scale deployment of offshore turbines in the Lake Erie central basin poses any significant threat to wildlife. Without the pilot project there is no way to determine the actual effect empirically.

Please approve the site for the pilot project so these data can be obtained and evaluated.
