Dear Public Utilities Commission,

My name is Christina L. Barr and I live at 1115 Stanwick Dr., Beavercreek OH, 45430. I am STRONGLY opposed to Dayton Power and Light's plans to use an upfront mandatory residential fixed fee. This fee is a huge 223% increase from the current fee. As a customer, I should be allowed to control my bill according to my usage, not a fixed fee. This rewards my hard work of being energy conscientious. An incentive for conserving energy.

I want to see more clean energy options and less reliance on coal and oil. This will ultimately be best for us in the long run.

NO RATE INCREASE

This is in regards to case number: 15-1830-EL-AIR

Sincerely,

Christina L. Barr 3-15-17

FILE

Dear Public Utilities Commission,

My name is Stephen Barr and I live at 1115 Stanwick Dr., Beavercreek OH, 45430. I am opposed to Dayton Power and Light's plans to increase the customer charge by more than 3 times, by more than \$100 per year. Instead of raising rates, DP&L should increase their renewable energy and efficiency programs. Efficiency should be rewarded, and increasing the customer charge does just the opposite.

Respectfully,

Stephen Barr

Dear Duco, I am totally opposed to DQ's plan to increase the customer service charge by 200%.

I am firmly convinced we must increase our use of renewable energy resources!

Sincerely,
Ruby Webster
