Subject: 16-1871-EL – BGN icebreaker windpower

Dear members of the OPSB,

I'm an apprentice with IBEW Cleveland local 38. Look forward to becoming an electrician with the opportunity to have a good paying job right here in my own backyard.

I am writing to ask you to support icebreaker winds application for approval to move forward with this project to build six wind turbines in the Lake Erie north of Cleveland. This project will open the door for thousands of new jobs and will allow me to stay close to home, raise my family and be part of building an exciting future for Northeast Ohio and the entire Great Lakes region.

Building a freshwater wind energy industry will help ensure a strong economic future as well as producing cleaner air health your families and thousands of jobs for origins future.

Thank you for your consideration.

Sincerely,
Scott Beebe
