COMMENT DESCRIPTION:

I am writing concerning Case #16-0253-GA-BTX. I am opposed to this pipeline. Today I walked past the Reading Stadium. There was a track meet with 8 school buses of student athletes and the stadium was full of fans. Duke's pipeline will go past the stadium placing all these people in harms way. This scenario is true many times and places along both the routes that Duke has chosen for their pipeline. Why can't this pipeline go down or along the expressway? The answer is the Federal government will not allow it citing safety concerns. Shouldn't these same safety concerns be applied when Duke routes their pipeline through residential and heavily populated areas? Another concern I have is where will Duke's pipeline be vented? Duke has never addressed this issue. This polluted air is both a health and environmental issue considering the heavy population on both of the routes Duke has chosen.

Please put people ahead of corporate profits.
