**Re: Oregon Clean Energy, LLC
Case No. 12-2959-EL-BGN**

Dear Ms. McNeal:

The May 1, 2013 Opinion, Order, and Certificate approving Oregon Clean Energy, LLC's ("OCE") Certificate of Environmental Compatibility and Public Need to Construct an Electric Generation Facility ("Certificate") and the March 15, 2013 Second Supplement to Application established a set of conditions and supplemental commitments as part of the Certificate.

Specifically, in part, **Commitment No. 5**, which is included in the Second Supplement filed on March 15, 2013, requires that:

Within 60 days after the commencement of commercial operation, the Applicant will submit to Staff a copy of the as-built specifications for the entire facility. If the Applicant demonstrates that good cause prevents it from submitting a copy of the as-built specifications for the entire facility within 60 days after commencement of commercial operation, it may request an extension of time for the filing of such as-built specifications. The Applicant will use reasonable efforts to provide as-built drawings in both hard copy and as geographically-referenced electronic data.

The as-built switchyard drawings, were submitted the OPSB Staff on April 12, 2017. Thus, OCE is in compliance with Commitment No. 5.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
