COMMENT DESCRIPTION:

I wish to express my objection to raising the electric bill for AEP by \$10. It is an extra "tax" that it is particularly hard on the elderly. With increases property taxes, water, and gas, you guys are killing us!

COMMENT DESCRIPTION:

case number 16-1852-EL-SSO Hello, I'm writing to express dissatisfaction with the proposed fixed rate hike for electricity. Our household is using very minimal electricity for two people and we should not be punished with a fixed rate increase because we're conserving energy. Every day at my job, I speak with elderly patients who cannot afford their medications on their fixed income. If they can't afford a necessary medication, they definitely can't afford a fixed rate electricity hike! Please REWARD those of use who are using decreased amounts of nonrenewable energy and encourage renewable energy sources. I may be able to afford to get solar panels on my roof in the next couple years, but my elderly patients on a fixed income do not have that choice!

COMPLAINT DESCRIPTION:

Another rate increase is insane. We are all ready paying far too much for utilities. This is nothing but corporate greed. I have a family of four and every year it becomes harder and harder to pay the electric bill as it spirals out of control. They put scrubbers on the power plants so they could burn cheaper coal and our rates went up. Power plants are switching to natural gas and our rates still go up. I've replaced every lightbulb with LEDs and my bill still goes up. Please stop the madness! Thank you, Robert W Bucey

COMMENT DESCRIPTION:

I just read that AEP Ohio is requesting an outrageous increase of 120% in fixed fees. Where in this world is an increase like this even remotely logical? 120%!?! Maybe AEP Ohio thinks an additional \$10.00 a month is reasonable, but if they do they certainly are not thinking of people like myself (out of work) or my elderly parents that are on a fixed income, struggling to make ends meet as it is. I implore you to deny this increase. Electric rates have exploded in the past few (several?) years to the point that paying our monthly bill now is difficult. An additional ten dollars is excessive and harmful.

COMMENT DESCRIPTION:

This is in reference to Case 16-0253-GA-BTX: Duke Central Corridor Extension Gas Pipeline. We are opposed to Duke's Central Corridor Pipeline Extension because it exposes an urban area to significant risks. As a Duke Shareholder, I shudder to think what kind of liability would be involved if there is a gas explosion. This pipeline is going thru a highly populated area that not only includes neighborhoods, but also industry, schools, hospital, shopping malls, etc. Duke needs to find a better plan. Thank you.

COMMENT DESCRIPTION:

I am concerned about the 120% increase that AEP Ohio is proposing to add to fixed fees. 120% is too much!
