Dear Ms. McNeal:

On April 21, 2017, Hog Creek Wind Farm LLC ("Hog Creek") and the Staff of the Ohio Power Siting Board ("OPSB" or "Staff") held a preconstruction conference to commence general construction of the project, referred to as "Phase 2" of the project construction. Hog Creek completed Phase 1 of construction in late 2016, which involved the excavation of a limited number of turbine sites.

Phase 2 will begin with the completion of the foundation work for all project turbines, followed by the preparation of the turbine laydown area. Turbine construction is anticipated to begin this summer. The preconstruction conditions that apply to this phase of construction have been met.

Hog Creek believes that it is in compliance with all applicable conditions to begin Phase 2 of construction. Hog Creek intends to begin mobilization for Phase 2 by May 12, 2017 and begin construction on May 15, 2017. It is anticipated that Hog Creek will complete Phase 2 construction by the end of 2017.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Sally W. Bloomfield
