COMMENT DESCRIPTION:

I believe increasing the fixed rate charges is an unfair practice. It especially hurts those on fixed income and the poor. I believe it is much better and more reasonable to charge a just rate for the amount of electricity each customer uses and a very small amount as a fixed rate. James Mackert

COMPLAINT DESCRIPTION:

Regarding Case # 16-1852-EL-SSO, which involves AEP increasing the fixed charges for every customer. I unequivocally oppose this hike. It will disproportionately affect lower income people, and will discourage people from investing in solar energy, which we must do to keep our only Planet from burning up. We must provide incentives for both companies and people to conserve electricity. Higher fixed charges do not achieve this goal.
