Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Amberley and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I am opposed to the Central Corridor Pipeline Extension Project due to the dangers it poses to me, my family, and my community.

The proposed pipeline will negatively impact the environment by causing the destruction of trees. It will cause tremendous dangers by disrupting traffic patterns and safety routes. It will negatively impact economic growth because the pipeline will run through the Gibson property which has been undergoing renovations for the express purpose of attracting investors and businesses to the community and the pipeline will make the property undesirable to perspective investors. Our property values will decline because it will discourage new residents from moving in and stunt the growth of our community. And it is a danger to our children and residents since the new pipeline runs near our school (Cincinnati Hebrew Day School) and our homes.

Again, I say the pipeline is a danger and I do not want it running through my neighborhood.

Sincerely,

Shoshana Golin-Cahn

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Shoshana Golin-Cahn
