Description of the Transaction

On April 12, 2017, Windstream and Broadview Holdings entered into an Agreement and Plan of Merger (the “Merger Agreement”) pursuant to which, among other things, an indirect subsidiary of Windstream created for the purpose of effectuating the transaction (“MergerSub”) will be merged with and into Broadview Holdings, with Broadview Holdings continuing as the surviving corporation (the “Transaction”). As a result of the Transaction, Windstream will be the new ultimate parent company of Broadview Holdings and Broadview Networks. This change in ultimate control does not involve a transfer of operating authority, assets or customers, and the Transaction is expected to be virtually seamless to end user customers. The current customers of Broadview Networks will remain customers of the company following the Transaction. Accordingly, customers will continue to enjoy the same rates, terms and conditions of service as they do prior to closing.¹ Immediately following consummation of the Transaction, Broadview Networks will continue to offer the same services, rates, terms and conditions pursuant to its existing authorizations, and the only material change resulting from the Transaction will be that Broadview Networks ultimately will be indirectly owned by Windstream, and subsequently may change its name to reflect the “Windstream” brand in its names.

Diagrams demonstrating the Transaction are appended hereto as **Exhibit A**.

Public Interest Considerations

A. The Transaction is in the Public Interest

Commission approval of the Transaction will serve the public interest. The telecommunications industry has been and continues to be subject to rapid technological advances, evolving consumer preferences and dynamic changes. The creation of Windstream in 2006 established an independent, stand-alone, wireline-centric corporation that serves the public interest by focusing squarely on enhancing local broadband services primarily in rural areas.

¹ Any subsequent changes made through the ordinary course of business will be made pursuant to applicable regulatory approval, tariffing, or similar processes.

Since its creation, Windstream has expanded its product offering to include IP-based voice and data services, MPLS networking and wave services to enterprise and government agencies. Combining Broadview with Windstream will enable Broadview Networks to continue to offer and expand a broad range of high quality services, including cloud-based unified communications solutions, to small and medium sized business customers. Windstream will help ensure and improve the continuation of Broadview's ability to deploy and maintain innovative and advanced telecommunications offerings, benefiting Ohio consumers and serving the public interest, convenience and necessity.

The efficiencies and economies of scale resulting from the Transaction will improve the combined enterprise's economic position and, thus, its ability to continue to attract financing to invest in and offer new and innovative services. Enabling small and medium-sized carriers to achieve such efficiencies is beneficial since economically stable competitors enhance competition which serves the public interest. The Transaction also will provide each of the Parties access to the others' advanced network capabilities, technical and financial strengths, and complementary services, which together are expected to strengthen Parties' ability to provide quality competitive services in the State of Ohio. The combined enterprise will have greater economies of scale and scope than the Broadview Holdings subsidiaries would have had operating independently.

B. The Transaction will be Seamless to Customers

The Transaction generally will be transparent to customers and, at the time of the Transaction, customers will not experience any immediate changes in services, or rates, terms and conditions of service. Broadview Networks' existing tariffs will not be affected by the Transaction, and will remain in effect (subject to change in the ordinary course of business). Any future changes in rates, terms and conditions of service will be made in accordance with applicable Commission requirements and any future consolidation of the operations into or with other Windstream processes, such that customers would see a change in its service, would be undertaken pursuant to applicable rules and notice requirements.

C. The Transaction Poses No Competitive Risks

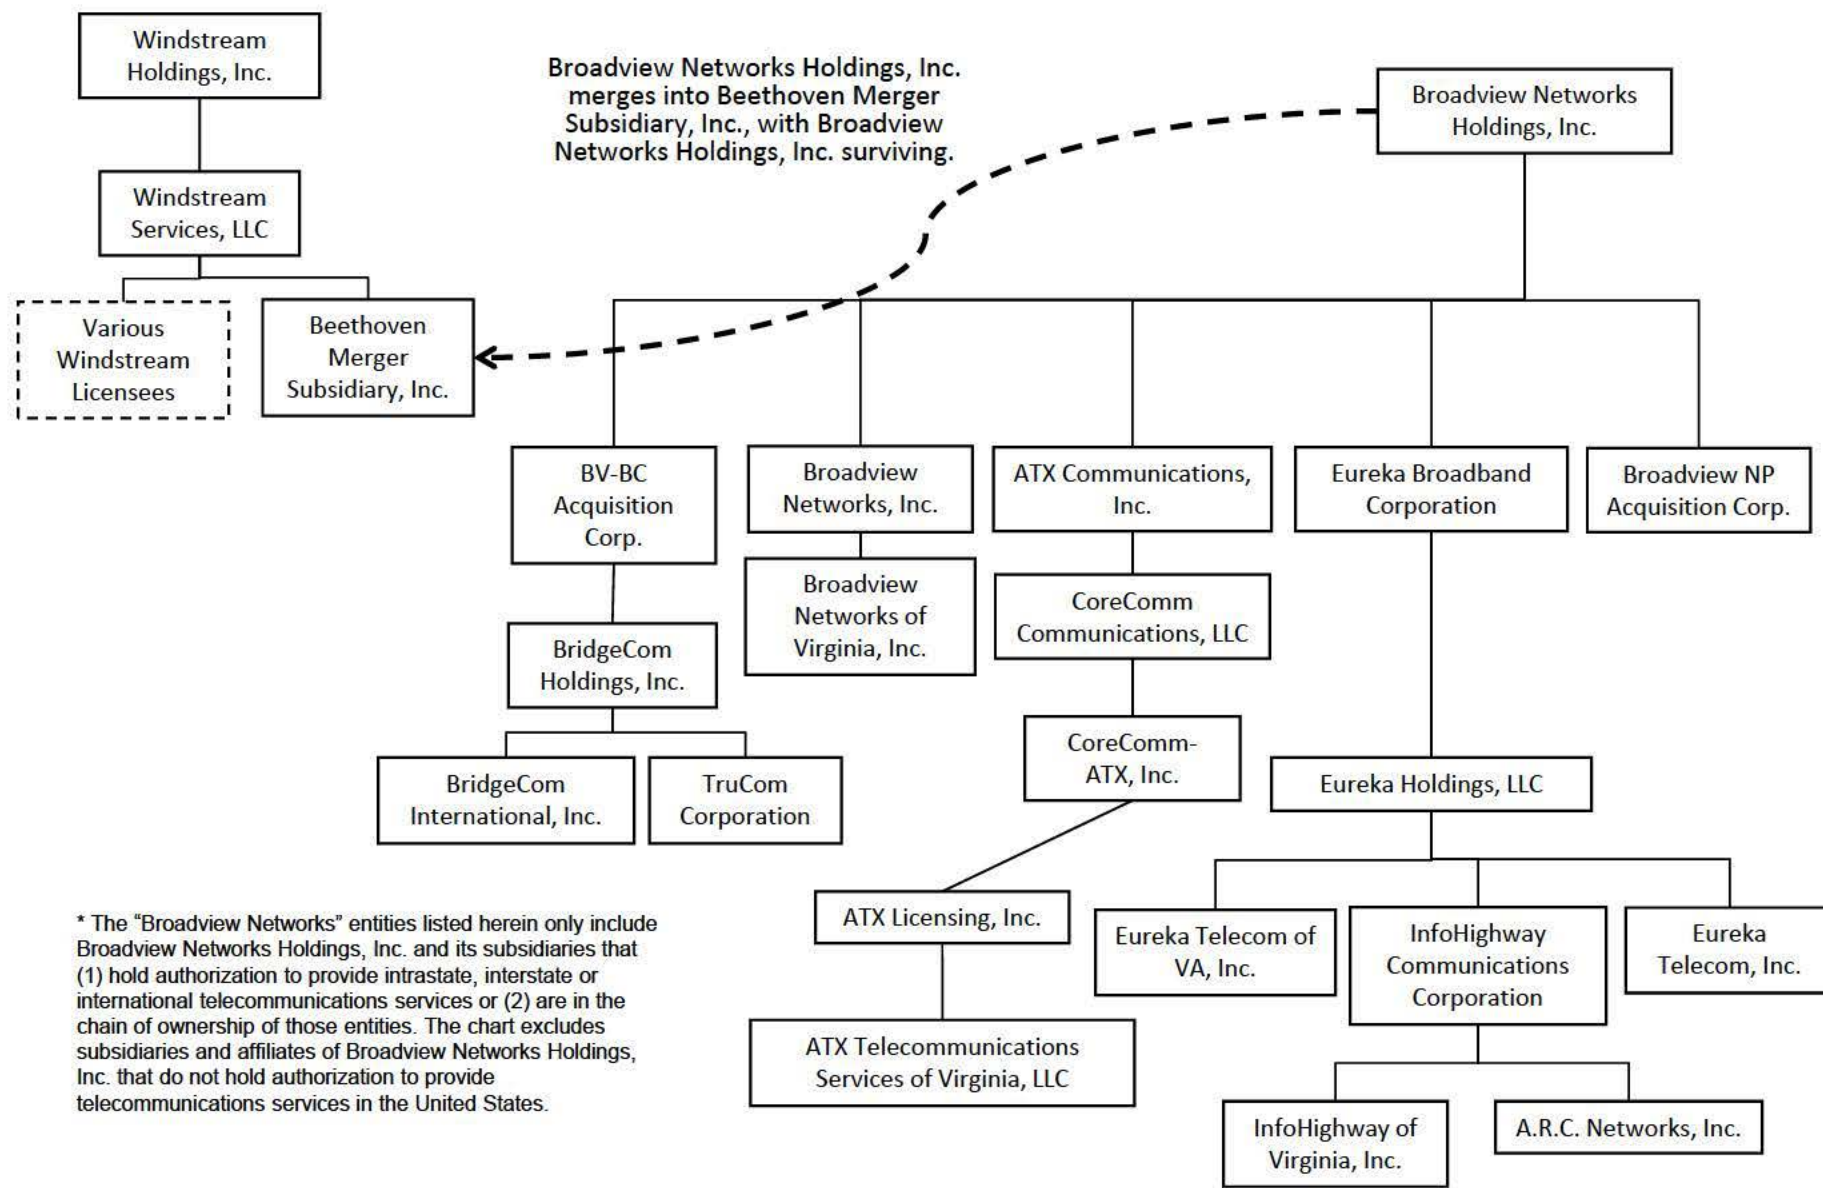

Given the increasingly competitive nature of the communications market, Applicants are seeking to complete the Transaction as soon as possible in order to ensure that customers and Applicants promptly realize the benefits of operating as a combined entity. This Transaction will

enhance competition because it will strengthen the Broadview and Windstream certificated entities. Applicants emphasize that the Transaction will not have a negative impact on current Windstream customers or customers of Broadview Networks.
