Dear Commissioners:

As careful consumers of increasingly scarce natural resources, we have taken steps to decrease our energy footprint. It is disconcerting that you could endorse an AEP rate increase that would be in effect despite our best efforts. We have installed solar panels but the fixed fees proposed in the increase certainly will reduce what we can save from our investment.

We urge you to reject the AEP proposal, case number 16-1852-EL-SSO.

Sincerely,

Jack Buckingham
