Subject: The Dayton Power and Light Company's Notice for Proposed Middleboro Metering Point Relocation Project, Harlan Township, Warren County, Ohio, Case NO. 17-1240-EL-BNR
Date: Tuesday, May 16, 2017 3:29:10 PM
Attachments: [Construction Notice.pdf](#)

Please find attached a Construction Notice as submitted to the Ohio Power Siting Board by The Dayton Power and Light Company for relocation of the Middleboro Metering Point. This is a very minor scope project, which will entail installing one steel pole, 2 wood poles and 290 circuit feet of 477 ACSR conductor on our existing property and 138 kV right-of-way; however, given it involves 138 kV facilities, power siting approval is required.

The entirety of the project will be on existing DP&L Middleboro Substation property. Therefore, the project will not entail purchasing any additional property, or expansion of the existing substation.

This information is being provided to you in accordance with Chapter 4906 of the Ohio Administrative Code. It does not require any further action on your part. If you have questions about the project after reading the attached Notice, please call Hertzel Shamash at (937) 259-7262.

This foregoing document was electronically filed with the Public Utilities
