Re: Case # 13-2385-ESP

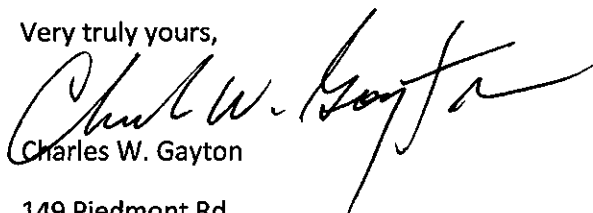

Dear Commission:

I am writing this letter to you to let you know that I am against AEP's plan to increase the customer charge by more than three times it's current rate. I see no reason for AEP to increase its use of Coal Powered power plants. In this time of extreme climate problems AEP should be trying to increase it's use of renewable energy that will aid in the need to stop climate change. I am now 79 years of age and what they do will not affect me, but it will affect my 15 month old granddaughter in the future. Any intelligent person that can reason and is not driven with Political motives knows that it is necessary for the planet to eliminate coal powered electric plants.

In addition to the above I have reduced my electric usage through the use of insulation and electrical reduced appliances and bulbs and I should not be punished with additional charges when I have done many things to limit the usage.

Please think of the world when you decide that an increase in pollution is not to be allowed in this great time of need.

Very truly yours,

Charles W. Gayton

149 Piedmont Rd.

Case #13-2385-ESP

161852-EL-860

I am writing to express my opposition to the proposed fixed fee increase by AEP for Ohio residential customers. This proposed 120% increase is not only exorbitant but I feel also reflects AEP Ohio's lack of commitment to increasing network efficiency and investment in lower cost renewable energy for the residents of Ohio. Please decline the request by AEP for this increase.

Ronald Freeland 110 Brevoort Rd

Re: Case # ^{14-1952 EL-SSO} 13-2385-ESP

I oppose your proposed "costumer charge" increase. I urge you, and AEP, to pursue green energy alternatives to our current dependence on coal. It is the only way for us to avoid the ruinous effects of global climate change.

Sincerely,

Peter S. Curtis

RE: Case #: 13-2385-ESP

Dear Public Utilities Commission of Ohio:

This letter is to inform you that I am opposed to the current plan to increase the customer charge. The fixed increase will result in fees being increased more than three times the current charge over the next few years. This makes it more difficult for low-income households and will not encourage energy usage efficiency.

Also, I hope that AEP is working to increase the energy efficiency and renewable energy programs that will encourage and result in positive changes for our environment and that will help AEP be a front-runner in such efforts.

Sincerely,

Linda Wiget

DEAR PUCO - Case 16-1852-EL-SSO
@ CASE # 13-2385-ESP

I UNDERSTAND AEP WANTS TO INCREASE THE
CUSTOMER CHARGE TO ME BY MORE THAN
THREE TIMES. I AM OPPOSED TO THIS RATE
HIKE AND WANT YOU TO OPPOSE IT TOO!

INSTEAD, AEP NEEDS TO INCREASE THEIR RENEWABLE
ENERGY AND ENERGY EFFICIENCY PROGRAMS, AND
THEY SHOULD BE ENCOURAGING ENERGY EFFICIENCY
FROM THEIR CUSTOMERS, NOT PUNISHING THE
PEOPLE WHO REDUCE THEIR USE OF ENERGY.

THIS ESPECIALLY WOULD HARM LOW-INCOME
CUSTOMERS - SO I URGE YOU TO OPPOSE THIS
MEASURE.

THANK YOU,

Ann Joyce
