SECTION 3 – DESCRIPTION OF SERVICE AND RATES

3.1 General

The Company provides resold automated operator assisted services originating from correctional facilities for communications originating and terminating within the State of Ohio. The Company's services are available twenty-four (24) hours per day, seven (7) days a week. Intrastate service is offered in conjunction with interstate service.

Customers are charged individually for each call placed through the Company's network. Charges may vary by service offering, and/or call duration. Customers are billed based on their use of the Company's services and network.

Services provided exclusively for the use of inmates of correctional or confinement institutions may be limited or restricted at the request of the Institution administration. Restrictions include, but are not limited to: call duration limits, call-to number blocking, emergency call blocking, blocked access to a live operator and to alternate carriers, collect or person to person collect only, service availability hours, or other restrictions deemed necessary for the welfare of the institution and safety of the public.

The Called Party must positively accept the call by dialing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated by the Company-provided telephone system.

3.2 Timing of Calls

3.2.1 Long distance usage charges are based on the actual usage of the Company's service. Timing of each call begins when the called party accepts the charges for the call. Positive response for acceptance of a call is required. A call will be terminated within five (5) seconds from the last message given if no positive response is received. A call ends when either the called or calling party hangs up. Timing of automated Collect Calls begins when the called party accepts the responsibility for payment.

3.2.2 Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one (1) minute.

3.2.3 Unless otherwise specified in this tariff, usage beyond the initial period is measured and rounded to the higher full minute for billing purposes.

3.2.4 The Company will not bill for incomplete calls and will remove any charges for incomplete calls upon Customer notification or the Company's knowledge.

SECTION 3 – DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.3 Institutional Collect Operator Assisted Calling

Legacy provides Institutional Automated Collect-Only Operator Services to Inmates of confinement facilities. Service may be limited by the administrators of the institutions as to availability, call duration or calling scope. Calls are billed to the Called Party. The Called Party must actively accept charges for the call. The call processing system prompts the Inmate and the Called Party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the Called Party.

For services provided to Inmates of institutions, the following special conditions may apply:

- A. At the request of the Institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning Legacy's services is provided to the administration of each Institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the Institution's administration.
- B. At the request of the Institution, Legacy may impose time limits on local and long distance calls placed using its services.
- C. At the request of the Institution, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.

3.3.1 Classes of Calls

Automated Collect Station Calls: are calls which are placed by an Inmate who dials all of the digits required to route the call and who follows the Legacy system prompts, enabling the Called Party to accept the charges for the call. If the Called Party does not accept the call, the call is terminated and no billing applies.

SECTION 3 – DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.5 Prepaid Institutional Operator Assisted Calling

3.5.1 General

Legacy Prepaid Institutional Calling Services provide alternative payment arrangements for Inmates in Correctional Institutions. This service is designed for those whose credit history is inadequate to receive collect calls; Called Parties whose usage exceeds credit limits established for the institution; inmates who wish to utilize their commissary funds for call placement; and Called Parties who simply wish to budget their inmate calls.

Two options are available with Prepaid Institutional Calling Services. The first option, Debit Card/Debit Account, allows the Inmate (via the Institution personnel) to set up his/her own account/card at the Correctional Institution. The second option, Prepaid Collect, allows the Called Party who receives collect calls from Inmates to set up his/her own prepaid account.

Prepaid Institutional Calling Services are available 24 hours a day, seven days a week. Access to telephone service by an Inmate may be subject to time of day and usage restrictions imposed by individual Facilities.

SECTION 3 – DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.5 Prepaid Institutional Operator Assisted Calling (Cont'd.)

3.5.1 General (Cont'd.)

A. Prepaid Debit Service

With a Debit Card or Debit Account (collectively referred to as “Debit”), each Inmate has the option to transfer funds from his/her commissary account to purchase a debit card or have calls paid for directly out of the Inmate’s commissary account. This is accomplished by facility personnel or through a direct interface between the commissary system and the inmate phone system. This account is associated with the Inmate’s Personal Identification Number (PIN). When the Inmate places a call, he/she has the option of calling collect or debit. Once debit is selected, the inmate enters the PIN and called telephone number. All purchases on a Debit Account are paid to and handled by the Institution. The Company receives payment from the Facility; it does not engage in direct monetary transactions with the Inmate. Debit cards or Debit Accounts may be purchased in any amount subject to the requirements or restrictions of the Facility.

The Company's system automatically informs the caller of the available usage balance remaining in the Prepaid Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the available usage balance in the account on a real time basis as the call progresses.

Available balances in the Debit Card or Debit Account are refundable by request of the Inmate (typically after release). The available usage balance expires six (6) months from the date the last call is made on the account or card. Since services are consumed in the order purchased, each new purchase will typically reset the expiration timeframe. No refunds will be issued after the service expiration date.

Network usage for a Debit call is deducted from the available usage balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.

SECTION 3 – DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.5 Prepaid Institutional Operator Assisted Calling (Cont'd.)

3.5.1 General (Cont'd.)

B. Prepaid Collect Service

Prepaid Collect service is available for Called Parties who choose to pay for services through a prepaid arrangement. A Prepaid Collect account is set up by the Company for the Called Party. If the payment into the account is provided via the Called Party's credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff. The Company does not engage in direct monetary transactions with the Inmate.

The Company's system automatically informs the account holder of the available usage balance remaining in the Prepaid Collect account prior to acceptance of the call. Network usage is deducted from the balance in the account on a real time basis as the call progresses. The account holder will also receive a reminder message when the account balance has one minute of usage remaining. All calls must be charged against an Account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the Account is insufficient to continue the call.

Payments for Prepaid Collect accounts and any available usage balance are refundable upon request, typically after release of the Inmate. The available usage balance expires six (6) months from the date the last call is made on the Prepaid Collect account. Since services are consumed in the order purchased, each new purchase will typically reset the expiration timeframe. Consumers may cancel services and request a refund prior to expiration. No refunds will be issued after the expiration date.

Initial or additional deposits to Prepaid Collect accounts may be made via selected retail outlets with which the Company may contract to receive Customer payments, or via Western Union, commercial credit card, debit card or e-checks. Payments may be made in any amount.

Prepaid Collect Services are available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day and usage restrictions imposed by individual Correctional Institutions.

Network usage for a Prepaid Collect call is deducted from the available usage balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.
