CASE NO. 17-823-GA-BNR
LINE 4265 MAINLINE EXTENSION AND REGULATION PROJECT
SECOND SUPPLEMENT

The map of the property appears to have a building on it but the building was recently demolished. Today the surface of the laydown/staging area consists of rubble and gravel. DEO's field staff reviewed the property and the parcel has land cover of disturbed ground/gravel/debris (the building has been demolished). The parcel does not contain any environmental resources. See the photo below for reference.

Thus the parcel appears ideal for a staging/laydown area and that no further action by the Board Staff is required.
