## SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D.)

## 3.1 General, (Cont'd.)

## 3.1.4 Application of Access Charges to Toll VoIP-PSTN Traffic

- A. Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Company's applicable Interstate Switched Access Tariff rates. Current and pending interstate access rates for the Company located at <https://apps.fcc.gov/etfs/public/lecTariffs.action?idLec=765>. Intrastate originating Toll VoIP-PSTN usage that falls within the exclusion period described in 2.17.3 will be billed at rates specified in Section 4.1 of this tariff. (C)
- B. The Company shall assess and collect switched access rate elements under this tariff for access services, regardless of whether the Company itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider of VoIP service that does not itself seek to collect switched access charges for the same traffic. The Company will not charge for functions not performed by the Company, its affiliated or unaffiliated provider of VoIP service. For purposes of this provision, functions provided by the Company as part of transmitting telecommunications between designated points using, in whole or in part, technology other than TDM transmission in a manner that is comparable to a service offered by a local exchange carrier constitutes the functional equivalent of carrier access service.
