Clean Energy Future in Ohio

CEF's management has a 17-year history of successful participation in the Ohio open market, gas-fired, wholesale electricity generation business. By the end of 2017, CEF will have provided \$4.5 billion of new private sector investment in Ohio to produce low-cost electricity. These Ohio projects include:

A. Fremont Energy Center: 710 MW (operating), for more information [click here](#).

B. Oregon Clean Energy Center: 960 MW (in construction): Operating 2017

- Take a virtual tour of the Oregon Clean Energy Center:
