**Re: Guernsey Power Station, LLC,
Case No. 16-2443-EL-BGN**

Dear Ms. McNeal:

On March 16, 2017, Guernsey Power Station, LLC ("Guernsey") filed an Application for a authority to build a 1,650 megawatt ("MW") electric generation facility in Guernsey County, Ohio. On July 13, 2017, Guernsey filed a copy of the System Impact Study for PJM Queue AB2-067 (1,100 MW). The additional 550 MW System Impact Study is still in progress and expected to be completed in September 2017.

The purpose of this letter is to state for the record that Applicant requests the project's capacity to be reduced to a total output of 1,100 MW. The capacity reduction is the result of PJM's delay of completing the System Impact Study in queue position AC1-044 (550 MW). Applicant intends to file an amendment at a later date to request an increase in capacity.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Sally W. Bloomfield
