

August 3, 2017

Mrs. Barcy McNeal
Commission Secretary
The Public Utilities Commission of Ohio
180 East Broad Street
Columbus, OH 43215

SUBJECT: Case Nos. 16-1790-EL-ATA
89-6001-EL-TRF

Dear Mrs. McNeal:

In response to and compliance with the Commission Finding and Order in Case No. 16-1790-EL-ATA dated August 2, 2017, please file one final copy of the attached tariff pages in the above referenced docket and one final copy in the TRF docket on behalf of The Cleveland Electric Illuminating Company. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Santino L. Fanelli". The script is cursive and fluid.

Residential Renewable Energy Credit Purchase Program	60	10-01-09
Interconnection Tariff	95	05-06-16

COGENERATORS AND SMALL POWER PRODUCTION FACILITIES

Availability:

This tariff applies to general service customers requesting the Company purchase of energy from cogeneration and small power production facilities which are eligible to qualify under Section 210 of the Public Utilities Regulatory Policies Act of 1978, having design capacity of 20,000 kilowatts or less.

All other electric service which cogenerators or small power producers may require from the Company, such as supplementary, back-up, or maintenance power, shall be furnished under the Company's filed rate schedules in effect for such service.

Administration:

For all customers with qualifying facilities wishing to sell energy to the Company, a monthly charge of \$9.42 will be made to cover administrative and other costs related to such energy purchases.

Rate:

For all customers with qualifying facilities wishing to sell energy to the Company, the purchase price for energy supplied to the Company from the qualifying facility shall be the PJM Balancing Market (Real-Time) Locational Marginal Price (LMP) at the FE Ohio load zone, net of PJM costs incurred, which will be itemized on the customer's bill when applicable.

All customers with qualifying facilities wishing to sell electrical output to the Company may negotiate a contract for service on an individual case basis, upon mutual agreement with the Company. Such contracts shall incorporate the terms and conditions of this tariff, including the purchase price for energy, and may include additional terms and conditions consistent with OAC 4901:1-10-34 (J).

Interconnection:

The Company's Interconnection Tariff shall apply to service under this tariff.

Purchase Agreement:

All qualifying facilities wishing to sell energy to the Company shall be required to sign a letter of agreement or other standard contract stating the terms of the transaction. No purchase will be made without such agreement or contract. The customer shall be responsible for any costs incurred by the Company for additional services provided other than the administration of energy purchases.

Any negotiated contract between the customer and the Company for the sale of electrical output of the qualifying facility, executed consistent with OAC 4901:1-10-34 (I) and (J), and upon mutual agreement with the Company, shall be subject to approval by the Commission within one hundred twenty days of its filing with the Commission.

Electric Service Regulations:

The Company's Electric Service Regulations shall apply to the installation and use of electric service.
