RE: In the matter of the Application of Vanlue Telephone Company to Add Language to the Intrastate Access Services Concurrence Exception for the Identification and Rating of Toll VoIP-PSTN Traffic (Originating) Vanlue Case No. 17-1522-TP-ATA

Dear Ms. McNeal:

Per the Public Utility Commission of Ohio Staff's direction, final tariff pages are being submitted for the above application. The final tariff pages will reflect an effective date of August 17, 2017.

The TRF Number for Vanlue is 90-5042-TP-TRF.

Thank you for your assistance. If you have any questions, please do not hesitate to call.

Regards,

/s/ Rachelle A. Ladwig

Enclosure

P.U.C.O. NO. 1  
ACCESS SERVICE TARIFF

---

Vanlue Telephone Company hereby adopts for the provisions of Intrastate Access Service the rates, charges and conditions specified in Tariffs filed by the National Exchange Carrier Association set forth below as they now exist and as they may be subsequently modified, except for Section 3 of Tariff F.C.C. No. 5, in which the company adopts the rates, charges and conditions effective as of June 30, 2003. The effectiveness of Section 4, End User Charges, as applied to intrastate customers, has been suspended by the Public Utilities Commission of Ohio.

Tariff F.C.C. No. 5 - Inclusive of:

- |              |  |     |
|--------------|--|-----|
| Section 1    | Application of Tariff  |     |
| Section 2    | General Regulations  |     |
|              | a) Except: Identification and Rating of Toll VoIP-PSTN Traffic as specified in this section.                               | (T) |
|              | b) Except: Definitions related to Toll VoIP PSTN Traffic as specified in this section.                                     | (T) |
| Section 3    | Not adopted.   |     |
| Section 4    | End User Charges (not adopted)   |     |
| Section 5    | Ordering Options for Switched and Special Access Service   |     |
| Section 6    | Switched Access Service  |     |
|              | a) Except: Call Signaling related to Toll VoIP-PSTN Traffic as noted in this section.                                      |     |
|              | b) Except that local switched access rates applied to the intrastate jurisdiction will be listed elsewhere in this tariff. |     |
| Section 7    | Special Access Service   |     |
| Section 9    | Directory Assistance Service   |     |
| Section 10   | Special Federal Government Access Services   |     |
| Section 11   | Special Facilities Routing of Access Services  |     |
| Section 12   | Specialized Services or Arrangements   |     |
| Section 13   | Additional Engineering, Additional Labor and Miscellaneous Services  |     |
| Section 13.4 | Presubscription (not adopted)  |     |
| Section 14   | Exceptions to Special Access Service Offerings   |     |

BY: JOEL DOHMEIER, VICE PRESIDENT  
VANLUE, OHIO

P.U.C.O. NO. 1  
**ACCESS SERVICE TARIFF**

---

**IDENTIFICATION AND RATING OF TOLL VoIP - PSTN TRAFFIC**

(1) Scope

This section governs the identification of Toll VoIP-PSTN Traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise) as mandated by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 on November 18, 2011 ("FCC Order") and the FCC's Second Order of Reconsideration (12-47) released April 25, 2012. Specifically, this section establishes the method of separating Toll VoIP-PSTN Traffic from the customer's traditional intrastate access traffic, so that such traffic can be billed in accordance with the FCC Order.

(2) Rating of Toll VoIP-PSTN Traffic

(a) Terminating

The Toll VoIP-PSTN Traffic - terminating identified in accordance with this tariff section will be billed at rates equal to the Telephone Company's applicable tariffed interstate terminating switched access rates as specified in Section 17 of the National Exchange Carrier Association Tariff F.C.C. No. 5.

(b) Originating

The Company's aggregate intrastate originating switched access rates are lower than their aggregate interstate originating switched access rates. All intrastate originating traffic will be billed at intrastate originating switched access rates.

(3) Calculation and Application of Percent-VoIP-Usage Factor

(a) The Telephone Company will determine the number of terminating intrastate Toll VoIP-PSTN Traffic minutes of use (MOU) to which interstate rates will be applied under (2), preceding, by applying a terminating PVU factor that represents the total intrastate access MOU that is originated by the Customer's end user in IP format and delivered to the Telephone Company and the total intrastate access MOU originated by the Customer end-user and terminated by the Telephone Company in IP format to the total intrastate access MOU

(b) The Telephone Company will determine the portion of dedicated facilities to which interstate rates will be applied under (2), preceding, by applying a PVU factor for dedicated switched access facilities to the dedicated facilities between the Telephone Company and the Customer.

(c) The Telephone Company will determine the number of originating intrastate Toll VoIP-PSTN Traffic minutes of use (MOU) to which interstate rates will be applied under (2), preceding, by applying an originating Percent VoIP Usage (PVU) factor to the total intrastate access MOU originated by a Telephone Company end user and delivered to the customer.

(d) The Customer will calculate and furnish to the Telephone Company a terminating PVUC factor (along with the supporting documentation as specified in (3)(j) below) representing the whole number percentage of the Customer's total terminating intrastate access MOU that the Customer exchanges with Telephone Company in the state that is sent to the Telephone Company and which originated in IP format and that would be billed by the Telephone Company as intrastate terminating access MOU.
