**Northeast Ohio Natural Gas Corporation
Case No. 17-309-GA-UEx**

SUMMARY;

In Case No. 03-1127-GA-UNC, the Commission authorized the concept of an uncollectible accounts expense recovery mechanism for five natural gas companies. The mechanism approved allows for recovery of actual bad/uncollectible debt through a rider, rather than through base rates. Subsequently, Northeast Ohio Natural Gas Corporation (Northeast or Corporation) was authorized in Case No. 04-964-GA-AIR to establish a rider recovery mechanism consistent with that which was approved in Case No. 03-1127-GA-UNC. On November 20, 2004, the Commission issued its Opinion and Order in that case and authorized an initial uncollectible rider rate of \$0.0100 per Mcf.

Since that time Northeast has filed updates to adjust its rider rate and the Commission has authorized subsequent revisions. Northeast's most recent UEX rider history is as follows:

November 2013 – September 2014	\$(0.0091) per Mcf
October 2014 – December 2015	\$0.0164 per Mcf
January 2016 – Current	\$0.0232 per Mcf

On July 28, 2017, Northeast filed the pending application to increase its current uncollectible expense rider rate from \$0.0232 per Mcf to \$0.0239 per Mcf, an adjustment of \$0.0007 per Mcf. Staff has reviewed the application and makes its findings and recommendations in this Staff Letter.

STAFF REVIEW

Staff performed a review of Northeast's annual balance of actual uncollectible accounts expense net of recoveries as of January 1, 2016, through April 30, 2017 (Attachment 1); UEX Rider Rate Calculation (Attachment 2); and proposed tariff sheets (Attachment 3).

STAFF RECOMMENDATION

Staff believes that Northeast's application appropriately calculates the rider and recommends the proposed rate of \$0.0239 per Mcf be approved.
