Hello,

I would like to say thank you for bring this project to where it is now. Hopefully all goes as planned. I'm ecstatic to see the sustainable route Cleveland hopefully decides to go down. At 19 years old, there is plenty of time ahead of me; a greener earth means a brighter future for the upcoming generations. Cleveland has the resources, there is no reason we shouldn't take advantage of them (shallow lake and minimal migration of birds).

Thank you,

Jared
