Subject: Case 16-1871-EL-BGN Icebreaker Windpower

I strongly support the Icebreaker project and urge you to accelerate your deliberations as much as possible to reduce the time required to complete it. It will add to Ohio's currently meager production of alternative energy and serve as a model for additional windpower initiatives. It will also burnish Ohio's reputation, provide savings for consumers, and pose at best a negligible threat to wildlife. Such a project is long overdue.
