COMMENT DESCRIPTION:

I am completely opposed to the Duke Energy Customer Service rate hike. This is bordering on highway robbery. They may think that spreading around the cost of repairing the lines when bad weather or other problems occur is okay - but if they had been updating the infrastructure all of this time things might not be so bad. They have gotten so used to high profits that any bit out of those profits is a bad thing. It is awful there is a fee in the first place, and that they haven't used to update the infrastructure. To ask for this much increase - they should be ashamed. There are people who can't afford their energy bills now!

COMMENT DESCRIPTION:

I am writing regarding the proposed Duke Energy increase of "fixed charges" on our electric bill. I am opposed to increasing the fixed charge. This will discourage electric users from making choices in their electric usage to reduce their usage charges. People should be incentivized to make energy efficient decisions whenever possible by having their usage charges being closely linked to the energy they are actually using. When energy bills are not tightly linked to energy usage those incentives are reduced or eliminated. Do not allow Duke to raise the fixed charge. Thank you, Karla Ruth

COMMENT DESCRIPTION:

Regarding the request by Duke Energy for rate increases, per case number 17-32-EL-AIR, I want to state that I support the suggestions put forward by the PUCO staff on Sept. 26, 2017 regarding the requested changes. I feel Duke's request would unduly affect those customers who have the least wealth. I don't feel Duke has made a strong enough case for the requested rate increases. Please protect the poorest in our state and reject the Duke requests, thanks.
