This month's Gas Cost Recovery (GCR) charge for customers purchasing their natural gas from Duke Energy is \$0.5137512 per CCF, which includes a base GCR of \$0.4898000 and Ohio excise tax of \$0.0239512.

The PUCO approved an increase in the AMRP Rider to fund improvements in the reliability and safety of Duke Energy's gas system. The rider results in an increase of \$1.15 per month to your bill.

Duke Energy filed an application on 7-9-12 (Case No. 12-1682-EL-AIR) with the PUCO to increase distribution rates to recover increased costs incurred since 2009. On 5-1-13, the PUCO approved an agreement allowing Duke Energy to increase electric rates by \$49.0 million. This represents \$3.72 per month (3.3%) for residential customers using 1000 kWh, effective for usage on or after 5-6-13. The residential customer charge increases from \$5.50 to \$6.00 per month. The distribution rate is the component of the electric bill that recovers the cost of building, operating and maintaining the system that delivers electricity to customers' homes and businesses. You can obtain further information by contacting Duke Energy at 513-421-9500, 800-544-6900 or [www.duke-energy.com](http://www.duke-energy.com).

This month's Gas Cost Recovery (GCR) charge for customers purchasing their natural gas from Duke Energy is \$0.5137512 per CCF, which includes a base GCR of \$0.4898000 and Ohio excise tax of \$0.0239512.

The PUCO approved an increase in the AMRP Rider to fund improvements in the reliability and safety of Duke Energy's gas system. The rider results in an increase of \$1.15 per month to your bill.

Duke Energy filed an application on 7-9-12 (Case No. 12-1682-EL-AIR) with the PUCO to increase distribution rates to recover increased costs incurred since 2009. On 5-1-13, the PUCO approved an agreement allowing Duke Energy to increase electric rates by \$49.0 million. This represents \$3.72 per month (3.3%) for residential customers using 1000 kWh, effective for usage on or after 5-6-13. The residential customer charge increases from \$5.50 to \$6.00 per month. The distribution rate is the component of the electric bill that recovers the cost of building, operating and maintaining the system that delivers electricity to customers' homes and businesses. You can obtain further information by contacting Duke Energy at 513-421-9500, 800-544-6900 or [www.duke-energy.com](http://www.duke-energy.com).

Duke Energy filed an application on 7-9-12 (Case No. 12-1682-EL-AIR) with the PUCO to increase distribution rates to recover increased costs incurred since 2009. On 5-1-13, the PUCO approved an agreement allowing Duke Energy to increase electric rates by \$49.0 million. This represents \$3.72 per month (3.3%) for residential customers using 1000 kWh, effective for usage on or after 5-6-13. The residential customer charge increases from \$5.50 to \$6.00 per month. The distribution rate is the component of the electric bill that recovers the cost of building, operating and maintaining the system that delivers electricity to customers' homes and businesses. You can obtain further information by contacting Duke Energy at 513-421-9500, 800-544-6900 or [www.duke-energy.com](http://www.duke-energy.com).
