PUCO Docketing Division:

On October 3, 2017, Patrick Engineering (Patrick), on behalf of the Indiana & Ohio Railway Company, requested a 30-day extension for the above-referenced project based on the Contractor (Progress Rail) materials delivery delays.

The power service pole including the meter base and disconnect has been installed by the Railroad, but unfortunately the power company (DP&L) has been unresponsive in connecting power to the service pole. Today, DP&L indicated that they might be able to get power connected by this Friday (11/17/17), however that does not leave time for Progress Rail to complete their 5-day work period before the Thanksgiving Holiday. Since the extended order deadline is November 25, 2017 we are hereby requesting an extension of 2 weeks in case the power is not connected in time.

Please feel free to contact me at 614-354-4933 if you have any questions regarding this submission.

Sincerely,

PATRICK ENGINEERING INC.
