COMMENT DESCRIPTION:

We are very concerned about Duke's clearcutting around their powerlines. They are going to devalue our properties and have a negative impact on the environment by destroying so much vegetation and very mature trees in the area. My understanding is that they have filed for regulation changes to allow the clearcutting but it has not been approved. They should be forced to maintain their line maintenance in the manner currently in affect.

Please docket the attached in the case number above.
