COMPANY\_NAME: Icebreaker Wind Project Case no. 16-1871-EL-BGN Icebrea

CASE\_NUMBER:

COMMENTS: I believe that although wind power is encouraging as an alternative to fossil fuel generated power, it would be a mistake to site these turbines in Lake Erie. I am sure that land based sites can be found and used. I am concerned that if the pilot project is built, that will open the floodgates to many, many more turbines in the lake and that would be a recreational and environmental disaster because of hazards to boating, wildlife, and the aesthetics of a structure free Lake Erie. Thank you.
