Dear Ms. Hunter:

Thank you for taking my call today. I appreciate you time and help.

The individual case # that was assigned to me is 17-2504-EL-CSS

Duke Energy is negatively impacting the property values of our homes in Anderson Township, OH. Duke is doing this by clear cutting and obliterating (vs. trimming as they have done in the past) all trees located within a 100 foot right-of-way under the transmission wires.

Our complaint is that Duke Energy is failing to adhere to what is permissible in the language of the Grant of Easement (written in 1951) that is associated with these properties. They are also surpassing requirements by PUCO as described in: Section F (Right of Way Vegetation Management) of its ***Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines 4901:1-10-27 (E)(1)***.

I would like PUCO to stop Duke from taking this excessive and unnecessary action to clear cut trees and we want PUCO to stop Duke Energy from using toxic herbicides on our properties.

We are also filing an Emergency Stop Cut Order for Duke Energy which is following this letter.

Sincerely,

Malick & Kimberely Sallah

Attention PUCO:

I request an **emergency stop cut order** for clear-cutting all trees in the 100 ft. utility easement that Duke Energy has on my property until my complaint can be acted on by PUCO.

Please understand, I have no objection to trimming of trees, as previously practiced by Duke Energy, however I object to the total destruction of all trees located within the easement.

Because Clear cutting could commence as early as 12/19/2017, this may be sooner than my complaint can be acted on by PUCO, but please I ask that you do everything you can to issue the stop cut order.

My case # is 17-2195-EL-CSS. (MELISSA & BRIAN WEISS VS DUKE ENERGY OH)

Sincerely,

Malick & Kimberely Sallah
