## Notes:

Section I and II are Pursuant to Ohio Administrative Code 4901:1-6.
Section III - Carrier to Carrier is Pursuant to Ohio Adm.Code 4901:1-7, and Wireless is Pursuant to Ohio Adm.Code 4901:1-6-24. Section IV - Attestation.
(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.
(2) For requirements for various applications, see the identified section of Ohio Adm.Code Chapter 4901 and/or the supplemental application form noted.
(3) Information regarding the number of copies required by the PUCO may be obtained from the PUCO's website at www.PUCO.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the PUCO.
(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

## All filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits:

| Exhibit | Description: |
| :---: | :--- |
| A | The tariff pages subject to the proposed change(s) as they exist before the change(s). |
| B | The tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin. |
| C | A short description of the nature of the change(s), the intent of the change(s), and the customers affected. |
| D | A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the <br> applicable rule(s). |

Issued by the Public Utilities Commission of Ohio
Lance Miller, President
McClure, Ohio

## EXHIBIT C (Description of Changes)

In this application, The McClure Telephone Company dba M2X Communications requests pricing flexibility to increase its BLES rates for both business and residential customers by $\$ 1.25$ per month in its McClure Exchange. Obtaining flexible pricing at this point in time is essential for the Company to make progress in reaching the Universal Service Fund "urban rate floor" set forth in the FCC's USF/ICC Transformation Order (FCC-11-161).

## EXHIBIT D

## (Customer Notice and Affidavit)

The following customer notice appeared on bills that were mailed to McClure Telephone Company, aba M2X Communications customers on December 7, 2017. This notice was sent to the Office of Ohio Consumers' Counsel and to the Commission's electronic mailbox (Telecomm-Rule07@puc.state.oh.us) prior to the rate increase.

Effective February 1, 2018, our local telephone rates will increase by $\$ 1.25$ per month for residential and business customers. The residential customer rate will go from $\$ 16.00$ to $\$ 17.25$ and the business customer rate will go from $\$ 27.90$ to $\$ 29.15$. Many rural telephone companies, including McClure Telephone Company, dba M2X Communications, receive support from the Federal Universal Service Fund. Federal rules reduce such support if a telephone company's local rates are below the national average. The $\$ 1.25$ increase is necessary to bring our local rates more in line with the national average and to avoid a reduction in our Federal Universal Service Fund support.

If you have any questions about the revised rates, please call our office at (419) 748-8008.

## AFFIDAVIT

The following affidavit was prepared and filed with the Commission after the customer notice was provided to customers on December 7, 2017:

I, Kathy E. Hobbs, am an authorized agent of the applicant corporation, The McClure Telephone Company doa M2X Communications, and am authorized to make this statement on its behalf.

I attest that the customer notice accompanying this affidavit was sent to affected customers as a bill message on December 7, 2017, in accordance with Rule 4901:1-6-07, Ohio Administrative Code. I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) December 29, 2017 at (Location) Columbus, Ohio, 43215.

Signature:

Kathy E. Hobbs
Consultant/Authorized Agent
For McClure Telephone Company dbl M2X Communications

## EXHIBIT E

## (Demonstration of Alternative Providers)

Pursuant to R.C. 4927.12(C)(3)(a) and Ohio Administrative Code 4901:1-6-14, McClure Telephone Company dba M2X Communications may not increase its BLES rates for an exchange area unless it first applies to the Public Utilities Commission of Ohio and the Commission determines that the application demonstrates that two or more alternative providers offer, in the exchange area, competing service to the BLES service offered by the company, regardless of the technology and facilities used by the alternative provider, the alternative provider's location and the extent of the alternative provider's service area within the exchange area. An alternative provider, under R.C. 4927.12(C )(3)(a), includes a telephone company, including a wireless service provider, a telecommunications carrier and a provider of internet protocol-enabled services, including voice over internet protocol.

The Commission has not previously determined that McClure Telephone dba M2X Communications exchange qualified for alternative regulation of BLES.

In accordance with R.C. 4927.12(C)(3)(a), the attached information demonstrates that two or more alternative providers offer competing service to the BLES service offered by McClure Telephone Company dba M2X Communications in its exchange, namely Charter Spectrum, Verizon Wireless, Sprint and AT\&T Mobility.

## Coverage updated on: 12/8/17

You are viewing coverage that includes Sprint coverage and roaming.
This toor prow ingh-level estimates of our wireless coverage. Coverage is not available
everywhere and varies based on a number of factors. $\gg$ Learn more.

Our coverage maps provide high-level estimates of our coverage areas when using your device outdoors under optimal conditions. Coverage isn't available everywhere. Estimating wireless coverage and signal strength is not an exact science.
 geography, topography, etc.), will result in dropped and blocked connections, slower data speeds, or otherwise impact the quality of services.
Services that rely on location information, such as E911 and GPS navigation. depend on your device's ability to acquire satellite signals (typically not available indoors) and network coverage. E911 services also depend on local ernergency service provider systems/support. Estimated future coverage subject to change.

Coverage by Device Type: 4G LTE*

## Domestic Wireless Data Coverage

This map shows an approximation of wireless data coverage in the United States, Puerto Rico, and the U.S.Virgin Islands.

Important Information About This Coverage Map These maps provide a predicted high-level approximation of wireless coverage. There are gaps in coverage that are not shown by this high-level approximation. Actual coverage may differ from map graphics and may be affected by terrain weather, network changes, foliage, buildings, construction, signal strength, high-usage periods, customer equipment, and other factors. AT\&T does not guarantee coverage. Our coverage maps are not intended to show actual customer performance on the network or future network needs or build requirements inside or outside of existing AT\&T coverage areas. Coverage maps may include areas served by unaffiliated carriers. Arrangements with these carriers may change from time to time, and coverage is subject to change without notice. Charges will be based on the location of the site eceiving and transmitting the call, not the subscriber's location. Your phone's display does not indicate the rate you will be charged
These maps are subject to the Microsoft® Service Agreement and for informational purposes only. No guarantee is made regarding their completeness or accuracy. Construction projects, traffic, or other events may cause actual conditions to differ from these results. Map and traffic data 2013 NAVTEQ@

## Coverage Legend Definitions

4G LTE* (Long Term Evolution): Areas shown in dark orange represent AT\&T's fastest mobile Intemet speeds. You'll know you're in our LTE coverage area when the 4G LTE network indicator displays next to the signal bars on your device. Compatible device required. Certain 4G LTE devices are not compatible in select LTE network coverage areas. Learn more.
4G* (Mobile Broadband): The areas shown in medium orange represent AT\&T's 4G High Speed Packet Access (HSPA+) network with enhanced backhaul. Compatible device required.
3G* (3G Voice and 3G Mobile Broadband Data): This coverage, shown in light orange, is available in most metropolitan areas. Like all coverage, it can and will be adversely affected by distance from cell site, weather, foliage, tower congestion, and other factors. You'll know you're in our 3G coverage area when the 3G network indicator displays next to the signal bars on your phone. Compatible device required.
3rd Party Coverage: These areas, shown in light orange with a striped pattern, represent 3rd party coverage where available. The 3rd party speeds, quality of coverage, and services are not guaranteed. Excessive use of 3rd party service may result in the loss of coverage in such areas as stated in your plan terms. Compatible device required.

Enjoy $\mathrm{HBO}^{\circ}$ on your big screen and mobile devices when you have AT\&T Unlimited Choice ${ }^{5 M}$ or Plus ${ }^{5 M}$ plans. ' Plus, get unlimited talk, text, and data on the nation's largest network.**

Video may be limited to SD. After 22GB of data, AT\&T may slow speeds.

[^3]**Based on overall coverage in US licensed/roaming areas as of May 2017. Coverage not avail, everywhere.
