DOCKETING CASE #: 17-32-EL-AIR

SUBJECT: Duke Energy Company wanting to increase fixed customer fees.

Duke Energy stock was up over 12% this past year. They are making money. But to increase fixed fees from \$72 to \$270 a year is too much. If fees need to be increased they need to do it gradually. I realize they are spending money on building solar power. In Indiana they wanted to take the tax breaks from solar powered people and small solar power companies and introduce the idea of customers renting solar power panels from them! Give me a break!!! Duke Energy is in the top half of their industry and just because they are big doesn't mean they should be able to bully the rest of us. The request for \$270 per year is too much!!! I should get a break on costs if I am trying to reduce my energy use not an increase!!! PUCO needs to vote no!!

Please docket the attached in the case number above.

Sincerely,

Alfred Thompson
