**Re: Guernsey Power Station, LLC,
OPSB Case No. 16-2443-EL-BGN**

Dear Ms. McNeal:

The October 5, 2017, Opinion, Order, and Certificate (“Certificate”) approving Guernsey Power Station, LLC (“GPS”) Certificate of Environmental Compatibility and Public Need to Construct the Guernsey Power Station approved the Stipulation which set forth a set of conditions as part of the Certificate.

Within this set of conditions, **Condition No. 7** requires that:

The Applicant shall not operate the facility above 1,100 MW. If additional capacity above 1,100 MW is anticipated, the Applicant shall submit an amendment to the Board requesting an increase in capacity. The amendment shall include the PJM System Impact Study of the proposed increase in capacity.

GPS filed its First Amendment Application in Case No. 18-090-EL-BGA (“Amendment”) on January 11, 2018 requesting an additional 550 MW of capacity. Amendment Appendix A is a copy of the Generation Interconnection System Impact Study Report – Queue Position AC1-044. As a result, GPS is in compliance with Condition No. 7.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield

Cc: Jon Whitis
Jonathan Pawley
