Dear Mr. O'Dell:

As you know, South Field Energy held a conference on January 11, 2018 with Staff of the Ohio Power Siting Board and contractors regarding initial tree clearing for the generation facility and related project transmission line and natural gas pipeline. In follow-up to that conference, please find attached access plans for the initial tree clearing along with a complaint resolution plan and form for the initial tree clearing. At this time, South Field Energy anticipates initial tree clearing to commence and be completed no later than March 31, 2018. South Field Energy will provide further communications to you regarding the actual dates for commencement of and completion of the initial tree clearing.

Please call me or Amy Frazier, Associate General Counsel and Manager, Environmental Permitting, Advanced Power Services (NA) Inc. at 617-456-2209 if you have any questions regarding this correspondence.

Very truly yours,

Michael J. Settineri
