RE: In the Matter of the Commission's Consideration of Telephone Safety Valve Requests and Other Number Resource Related Filings, PUCO Case No. 10-0884-TP-UNC

Dear Ms. McNeal:

Accompanying this letter is a Petition of Cincinnati Bell Extended Territories LLC for Review of a Decision of the Number Pooling Administrator to be filed in connection with the above referenced proceeding. This Petition and attachments are being filed electronically and are contained entirely within this PDF document. Questions regarding this filing may be directed to me at the above address or by telephone at (513) 397-6671.

Sincerely,

A handwritten signature in cursive script, appearing to read "Patricia L. Rupich".

Patricia L. Rupich

<b>In the Matter of the Commission's</b>	)	
<b>Consideration of Telephone Safety Valve</b>	)	<b>Case No. 10-0884-TP-UNC</b>
<b>Requests and Other Number Resource</b>	)	
<b>Related Filings</b>	)	

**PETITION OF CINCINNATI BELL EXTENDED TERRITORIES LLC  
FOR REVIEW OF A DECISION OF THE POOLING ADMINISTRATOR**

Cincinnati Bell Extended Territories LLC (“CBET”) hereby requests that the Commission review and overturn a decision of the number Pooling Administrator (“PA”) which denied a CBET request for numbering resources. On February 20, 2018, CBET filed a request with the PA seeking 3,000 contiguous numbers in the Mason rate center to meet a specific customer request that CBET was unable to satisfy with its existing numbering resources. The PA denied CBET’s request on the grounds that CBET does not meet the utilization and months-to-exhaust criteria established by the Federal Communications Commission (“FCC”). Under the federal numbering rules, a state commission may overturn the PA’s decision based on its determination that the carrier has demonstrated a verifiable need for the numbering resources and has exhausted all other available remedies.<sup>1</sup> For the reasons set forth below, CBET submits that the Commission is justified in overturning the PA’s decision and granting CBET’s request for three thousands blocks to meet this customer’s needs.

In its Third Report and Order in the Numbering Resource Optimization proceeding, the FCC found that “a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier’s inability to satisfy a specific

---

<sup>1</sup> 47 CFR 52.15(g)(4).

customer request.”<sup>2</sup> It also clarified that states may grant requests by carriers in such circumstances, as long as the request is for a customer seeking contiguous blocks of numbers and not vanity numbers.<sup>3</sup> Therefore, this Commission has the authority to overturn the PA’s decisions under the appropriate circumstances.

### **Mercy Health’s Request**

In the immediate case, CBET has a request from Mercy Health for 3,000 contiguous numbers in the Mason rate center to be used at its Mercy Mason Campus in Mason, Ohio. According to Mercy Health, there are currently over 1,200 employees working out of the Mason Campus and it has plans to add another 1,000 to 2,000 employees to handle call center and revenue cycle management functions. The additional numbers will be used for these employee lines as well as administrative functions. Mercy Health is specifically requesting numbers in the 513-466 NPA-NXX for business continuity purposes since the numbers they currently have at the Mason Campus are from that NPA-NXX (see customer letter provided in Attachment A). Securing numbers from that same NPA-NXX will enable Mercy Health to maintain a uniform numbering plan at its Mason Campus.

CBET has reviewed its number inventory and it does not have any unassigned numbers in the 513-466 NPA-NXX nor does it have 3,000 contiguous numbers available in the Mason rate center at all. However, as shown on the attached Pooling Administration System Worksheet, CBET’s request for three new thousands blocks to

---

<sup>2</sup> Numbering Resource Optimization, *Third Report and Order and Second Order on Reconsideration*, CC Docket No. 96-98 and CC Docket No. 99-200, FCC 01-362 (rel. Dec. 28, 2001) at ¶64.

<sup>3</sup> *Id.*

serve this customer was rejected because it does not meet the Utilization and Months to Exhaust threshold (see Attachment B).

**Conclusion**

For the reasons set forth above, CBET requests that the Commission overturn the PA's decision and direct the PA to grant CBET's requests for three thousands blocks from the 513-466 NPA-NXX in the Mason rate center to satisfy the needs of its customer.

The Public Utilities Commission of Ohio  
180 E. Broad Street  
Columbus, OH 43215

January 24<sup>th</sup>, 2018

Dear Commissioner's,

Please accept this letter as a formal request for a block of 3,000 consecutive and sequential DID numbers in the 513-466 NPA-NXX that will be used for our expanding Mercy Health Call Center in Mason Ohio. We currently have 513-466-2000 through 513-466-3999. The need for this request is created by Mercy Health's continued growth and commitment to patients we serve. Mercy Health is the largest health system in Ohio with 30,000+ employees, and also the fourth largest employer in the state.

This location staffs approximately 1200 people consisting of call center agents, admin and other Mercy Teams that have a direct impact on patient access, scheduling, customer service and financial counseling. Numbers will also be used for fax lines, alarms and other patient support applications. Consecutive numbers are desired to facilitate a uniform numbering plan that is consistent with the Mercy Health Enterprise dialing plan. The reason for the additional numbers is due to the strategic plan to grow the Call Center and Revenue Cycle Management business requiring 1,000 – 2,000 agents and resources.

Please consider our request for 3,000 consecutive and sequential DID numbers in the 513-466 NPA-NXX to support our growing health care organization. If there are any questions or additional information required please feel free to contact me.

Respectfully,

Jeff McAfee  
Mercy Health

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" company name, company headquarters address, a contact within the company, an address contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pool Administrator section also requires the Service Provider to fill in the Pooling Administrator's address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (Local Access Transport Area (LATA), which is a three-digit number that can be found in the Technologies, Inc. dba iconectiv (iconectiv™) LERG™ Routing Guide<sup>xi</sup>. The Operating Company Number (OCN) assigned to the service provider and the OCN of its parent company. An OC character alphanumeric NECA-assigned Company Code or a four-character alphanumeric code assigned by the iconectiv™ Telecom Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification. Explanations of the request may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive exchange carrier, interexchange carrier, CMRS or VoIP. Also indicate the primary type of business for which the numbering resource is to be used. Service Providers may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be used, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first application for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the PA.

Section 1.6 Service Providers must indicate the updated/current information in regards to CO blocks on the block they are returning to the pool. Blocks with over 10% contamination (101 T) shall not be returned to the pool except when a service provider is exiting the market or is exiting a block that was identified as being over 10% contaminated. If the block being returned is over 10% contaminated, the PA shall seek a new block holder. If question c and/or d have a response, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing title and date.

#### Footnotes:

<sup>i</sup> Identify type of change(s) in Section 1.5.

<sup>ii</sup> The Pool Administrator is available to assist in completing these forms.

<sup>iii</sup> A CO Code application will also need to be submitted to the PA.

<sup>iv</sup> Operating Company Number (OCN) assignments must uniquely identify the applicant. Related to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies without a CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a company, companies with prior assignments should direct questions regarding appropriate CO Code to TRA (732-699-6700).

<sup>v</sup> This is an eleven-character descriptor of the switch provided by the owning entity for the pool routing calls. This is the 11 character CLLI™ Code of the switch /POI.

<sup>vi</sup> Rate Center name must be a tariffed Rate Center.

<sup>vii</sup> Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in processing this request.

<sup>viii</sup> Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be associated with the PSTN prior to the effective date of the block(s).

<sup>ix</sup> Select if you are the current Block Holder.

<sup>x</sup> Select if you are not the current Block Holder.

<sup>xi</sup> Common Language<sup>®</sup> and Telcordia<sup>®</sup> are registered trademarks and CLI<sup>™</sup>, LERG<sup>™</sup> Routing Information and iconectiv<sup>™</sup> are trademarks and the Intellectual Property of Telcordia Technologies, Inc. iconectiv.
