**DOCKETING CASE #:**14-1297-EL-SSO

**SUBJECT:** Cleveland Electric Illuminating Company - Protest Rate Case

Please docket the customer's comments below in the case number above.

**Customer Comments:**

I recently heard that a FirstEnergy wants to add a surcharge to all of their customers to keep the Perry Plant from closing. I do not believe this is fair to the rate payers in Northeast Ohio, this is a share owner problem and not rate payer problem.

FirstEnergy has done little to promote job growth, in fact they have closed all of their coal fired plants in Northern Ohio costing the jobs of not only their employees but also any business that had dealings with those Plants.

FirstEnergy has been investing in Plants and Utilities in Pennsylvania, West Virginia, Maryland, and New Jersey and now they want the rate payers of Northern Ohio to bail them out because they can't manage their Perry Plant!

As I said earlier this is not a rate payer problem this is a share owner problem and the PUCO needs to oppose any surcharge or rate increase for FirstEnergy!
