COMMENTS: Turbines on Lake Erie, I'm very much against it. To mark up our beautiful lake with tall ugly poles while stopping access to boaters. The lakes have brought alot of recreational boater money to the state. This will stop that flow not to leave out how birders travel from around the world to watch the migration across the lake. This will end that also. The only win in this deal is the German manufacturers of wind turbines. I will vote against any politician that chooses to support this project. I can say I'm only one of thousands outdoor enthusiasts who think this is a very bad idea.
