Republic wind project 17-2295-EL-BGN

In reviewing Exhibit aa the majority of pictures are not applicable or relevant to the Republic wind project. If any of the OPSB is interested in the location of this miss representation of affected views visit me and I will personally show the exact spots of pictures. It's another ploy and manipulation to justify this

Please file public comments for case number 17-2295-EL-BGN.

COMMENTS: In exhibit AA I noticed pictures that have no relevancy in the wind farm location. They are so far away they prove nothing. If you did not know or care how far away they were taken you would be ok with them. I urge the OPSB To investigate these and other important misleading facts that Apex in providing the board. Apex has it own investigating group that is not as forthcumming in their findings as these pictures report. I for one suggest that you reject the Republic Wind project upon further proof that is in the best interest of all. What will it hurt to be cautious.
