Ms. Barcy F. McNeal, Secretary Ohio Power Siting Board Docketing Division 180 East Broad Street, 11th Floor Columbus, OH 43215

Re: Case No. 13-197-EL-BGN, 16-1687-EL-BGA, and 17-1099-EL-BGA Trishe Wind Ohio, LLC Notification of Compliance with Conditions 17 and 19 of the Supplement—Turbine Coordinates / Height & As-Built Transmission Structure Coordinates / Height

Dear Ms. McNeal:

Trishe Wind Ohio, LLC ("Applicant") is certified to construct a wind-powered electric generation facility in Paulding County, Ohio, in accordance with the December 16, 2013 Opinion, Order, and Certificate issued by the Ohio Power Siting Board ("OPSB"). The Certificate is subject to the 40 conditions set forth in the December 16, 2013 Order, as well as the 26 conditions set forth in the October 1, 2013 Supplement to the original application ("Supplement").

Condition 17 of the Supplement requires the Applicant to meet all recommended and prescribed Federal Aviation Administration ("FAA") and Ohio Department of Transportation Office of Aviation ("ODOT-OA") requirements to construct an object that may affect navigable airspace. This includes submitting coordinates and heights for all towers exceeding 200 feet Above Ground Level ("AGL") for ODOT-OA and FAA review prior to construction. At this time, the Applicant is providing this letter to notify the OPSB that the Applicant is submitting coordinates for two additional towers exceeding 200 feet AGL, which are attached hereto.

In addition, Condition 19 of the Supplement requires the Applicant to file as-built transmission structure coordinates and heights AGL with the Ohio Office of Aviation and FAA. The Applicant is providing this letter to notify the OPSB that the Applicant's facility will not utilize AGL transmission structures, rendering Condition 19 inapplicable at this time.

We are available, at your convenience, to answer any questions you may have.

Respectfully submitted,

<u>/s/ William V. Vorys</u> William V. Vorys (0093479) Christine M.T.
