Re: Case No. 18-0666-EL-ACP
Reliant Energy Northeast LLC
Public Version of 2017 Alternative Energy Annual Status Report

Dear Ms. McNeal:

I am filing a redacted version of the Alternative Energy Compliance Report for Calendar Year 2017 for Reliant Energy Northeast LLC. This report is redacted because it contains certain confidential and proprietary information. Pursuant to Rule 4901-1-24(D) of the Ohio Administrative Code, a motion for protective order has been filed and a copy of the confidential version of this report is being submitted under seal.

Thank you for your consideration.

Very truly yours,

/s/ Gretchen L. Petrucci

**COMPETITIVE RETAIL ELECTRIC SERVICE PROVIDER
RENEWABLE PORTFOLIO STATUS (RPS) REPORT FOR CALENDAR YEAR 2017**

Reliant Energy Northeast LLC (hereinafter “CRES”) in accordance with Sections 4928.64, 4928.643 and 4928.65, Ohio Revised Code and Commission Rules 4901:1-40-03 and 4901:1-40-05 hereby submits this RPS Report detailing compliance with the Ohio Renewable Portfolio Standards.

Check this box if applicable:

- This RPS Report also addresses the compliance obligations of an additional CRES provider, _____.

I. Determination that an RPS Report is Required (check one)

- During calendar year 2017 the CRES states that it conducted retail sales of generation to customers who utilized the generation in a load center located located within the state of Ohio.
- During calendar year 2017 the CRES states that it did not conduct retail sales of generation to customers who utilized the generation in a load center located within the state of Ohio. (If this block is checked proceed to the signature line)

II. Determination of the sales baseline for 2017

The CRES will mark only one of the applicable options below in the determination of the sales baseline for 2017.

- a. The baseline is computed as an average of the three preceding calendar years (listed below) of the total annual number of MWh of electricity sold to any and all retail electric consumers served by the CRES in Ohio, based upon the MWh sales in the CRES’ most recent quarterly market-monitoring reports or reporting forms. That average is _____ MWh.

2014 _____MWh
 2015 _____MWh
 2016 _____MWh

- b. The CRES has not been continuously supplying Ohio retail electric customers during the preceding three calendar years; therefore, the baseline shall be computed as an average of annual sales data for all calendar years during the preceding three years (listed below) in which the CRES was serving retail customers. That average of annual sales data for all such calendar years is _____ MWh.

2014 _____MWh
 2015 _____MWh
 2016 _____MWh

X Beginning with compliance year 2014, a CRES may choose for its baseline the total MWh sold during the compliance year to any and all applicable retail consumers located in Ohio who are served by the CRES. Such actual sales in 2017 were **234,042** MWh.

d. A CRES may file an application requesting a reduced baseline to reflect new economic growth in its service territory or service area. Any such application shall include a justification including why timely compliance based on the unadjusted baseline is not feasible, a schedule for achieving compliance based on its unadjusted baseline, quantification of a new change in the rate of economic growth, and a methodology for measuring economic activity, including objective measurement parameters and quantification methodologies.

III. Determination of the number of Solar and Total Renewable Energy Credits (RECs) Required and Statement of the Number of RECs Claimed

RENEWABLE ENERGY CREDITS REQUIRED AND RETIRED FOR 2017

Types	No. of RECs Required (a)	No. of RECs Retired (b)	Registry (c)
Solar	351	351	PJM GATS
Non Solar	7,840	7,840	PJM GATS
Total	8,191	8,191	

a. Column a above lists the unadjusted number of Solar and Total RECs Required for the CRES in 2017. The determinations were calculated by multiplying the Baseline Sales by 15 hundredths of one per cent (.15%) for Solar RECs and 335 hundredths percent (3.35%) for non-Solar RECS. Total RECs include both Solar and Non Solar RECs.

b. The CRES states that it has retired in accordance with the Commission’s Rules the number of Solar and Non Solar RECs listed in column b above for 2017.

c. The CRES used the PJM GATS and/or M-RETS registry as listed in column (c) for the RECs detailed above.

d. CRES states that it did not seek and did not receive a *force majeure* determination for Solar RECs.

IV. Compliance (check one)

X CRES states that it has retired the required number of Solar RECs and Total RECs without adjustments permitted pursuant to Rule 4901:1-40-05(A)(3).

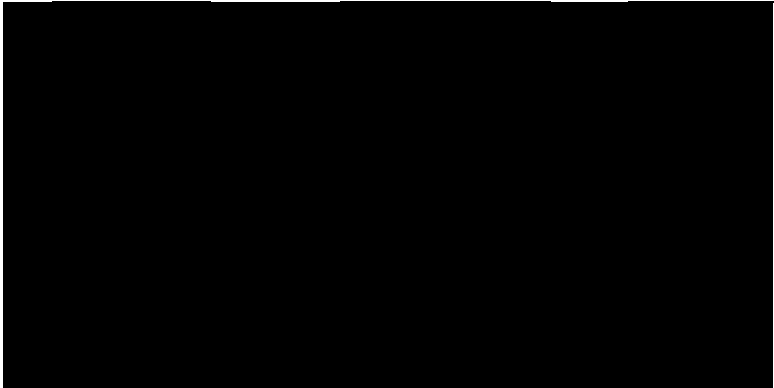

CRES states that it has retired the required number of Solar RECs and Total RECs after adjustments permitted pursuant to Rule 4901:1-40-05(A)(3). The type adjustment, reason for the adjustment and merit for making the requested adjustment of the proposed adjustments are detailed in an exhibit attached to this Report.

CRES states that it is not in compliance with number of Solar RECs or Total RECs required for 2017.

V. Ten Year Forecast

a. Ten Year Forecast of Solar and Non-Solar RECs

In accordance with Rule 4901:1-40-03(C) the CRES hereby provides a non-binding projection for the next 10 years for RECs and Solar RECs.

Year	Solar RECs	Non-solar RECs	Total RECs
2018			
2019			
2020			
2021			
2022			
2023			
2024			
2025			
2026			
2027			

b. The Supply Portfolio projection is based upon:
Current customer book with annual attrition and sales assumptions and statutory RPS requirements.

c. The Methodology used to evaluate its compliance options:
Plan on purchasing RECs and SRECs in lieu of ACP.

d. Optional comments on any perceived impediment(s) to achieving compliance with the Solar and Non Solar REC requirements, as well as any discussion addressing such impediments.

**COMPETITIVE RETAIL ELECTRIC SERVICE PROVIDER
RENEWABLE PORTFOLIO STATUS (RPS) REPORT FOR CALENDAR YEAR 2017**

I, **Mike Starck**, am the duly authorized representative of Reliant Energy Northeast LLC. To the best of my knowledge all the information contained in the foregoing report including any exhibits and attachments are true, accurate and complete.

AEPS@puco.ohio.gov

This compliance worksheet was developed by Staff for internal review purposes. However, it may be useful for your company in preparation of its RPS annual compliance status report for the 2017 compliance year. Your company is not required to include this form in its filing, but that is an option. If using this form, your company should insert data in the blue shaded boxes (as applicable). The remaining cells should auto-calculate. However, you should still independently verify the accuracy of the calculations. Questions concerning this worksheet can be addressed to Stuart.Siegfried@puco.ohio.gov
