**Re: Dominion Energy Ohio Chippewa Station Installation and
Replacement Project, Case No. 18-113-GA-BLN**

Dear Ms. McNeal:

On February 23, 2018, the Ohio Power Siting Board ("OPSB") Staff issued a Report of Investigation approving Dominion Energy Ohio's ("DEO") Letter of Notification subject to a number of conditions. Within this set of conditions, Condition No. 3 requires DEO to provide a copy of any floodplain permit required for construction of this project, or a copy of correspondence with the floodplain administrator showing that no permit is required, to Staff.

In compliance with Staff Report Condition No. 3, and as agreed to by DEO in its Supplement filed on February 27, 2018, attached is a copy of the Phase 1 Floodplain Development Permit.

Please contact me if you have any questions.

Sincerely,

Sally W. Bloomfield

Application No. P-18-47
FLOODPLAIN REVIEW PERMIT

Wayne County Planning Dept.
428 W. Liberty St., Wooster, OH 44691

WARNING AND DISCLAIMER OF LIABILITY:

The degree of flood protection required by the Wayne County Board of Commissioners resolution #2003-723 adopted December 23, 2003, is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasion. Flood heights may be increased by man-made or natural causes. Resolution #2003-723 does not imply that land outside the areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damage. Resolution #2003-723 shall not create liability on the part of Wayne County, any officer or employee thereof, or the Federal Emergency Management Agency, for any flood damages that result from reliance on said resolution or any administrative decisions lawfully made thereunder.

**RE: The East Ohio Gas Company
Floodplain Development Review
Chippewa Station**

Dear Ms. Johnson:

The East Ohio Gas Company (EOG) d/b/a Dominion Energy Ohio (DEO) is planning to expand and upgrade its existing compressor station located at 17045 Galehouse Road, in Chippewa Township, Wayne County, Ohio. The project includes the replacement of approximately 4,510 feet of six (6), eight (8), and twelve (12)-inch diameter natural gas pipeline within the DEO Chippewa Station. One (1) of the pipeline segments (Line 12000) to be replaced is near the designated 100-year floodplain.

To safely conduct construction activities, a portion of the work limits (along Line 12000) will extend within the 100-year floodplain. Temporary disturbance within the 100-year floodplain includes temporary equipment, material, and spoil storage during construction along the pipeline segment. No pipe or structures are being installed within the 100-year floodplain and no excavation within the floodplain limits will occur. After construction, all material will be removed and pre-construction elevations will be restored. Therefore, the flood heights will not be altered within the floodplain. Additionally, no wetlands or streams will be disturbed. A copy of the design drawing showing the 100-year floodplain boundary is enclosed.

If you have any questions or need additional information, please contact Tara Buzzelli at (330) 664-2579.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Gangle".
