17-2295-EL-BGN

To Whom it May Concern:

While I am not someone who would support a tax increase, I would like to see updated infrastructure in my community. The development of the Republic Wind project (Docket No. 17-2295-EL-BGN - Republic Wind, Llc) will improve the roads I use without an increase in taxes.

I live in a rural area, so it is important to me that I am accessible by emergency personnel in case something should happen to me or someone in my family. Improved roads would make it easier for emergency vehicles to access my home, and improved emergency response procedures would help in case of helicopter rescue.

These benefits to local infrastructure would improve safety and accessibility for people who live in rural areas like me. Thank you for considering my concerns and support of this project.

Sincerely,

*Wynna Schuked*

To Whom it May Concern:

I've lived in this area for 63 years and I've been following the Republic Wind project (Docket No. **17-2295-EL-BGN** - Republic Wind, Llc) for quite some time. I've participated in public discussions and directly interacted with the developer, Apex Clean Energy.

Apex has been accessible and responsive to questions and feedback. Overall, they have been very engaged with members of the community and are committed to protecting our legacy. As I've talked to my fellow residents, I see broad support for Republic Wind. I recognize there are some in the county who do not want wind projects. Fortunately, no one is telling them they must put a turbine on their property.

The economic, community, infrastructure and health benefits that would result from this project are hardly debatable. For these reasons I urge you to support Republic Wind.

Sincerely,

*MJM*
