CASE NO. 18-515-GA-BNR
PIR 2428 - WOODSVIEW DRIVE
CITY OF AKRON, SUMMIT COUNTY, OHIO
TWELVE (12)-INCH HIGH PRESSURE PIPELINE REPLACEMENT

The following information is being provided in compliance with Condition No. 2 of the April 17, 2018 Ohio Power Siting Board (“OPSB”) Staff Report of Investigation.

Condition No. 2 states:

Prior to construction, the Applicant shall submit to Staff, for review and confirmation that it complies with this condition, a project construction plan. The specific locations of its laydown areas and is responsive to ODNR concerns about state listed species and ecological areas of significance. If the specific laydown locations chosen appear to have additional adverse impacts, the Applicant shall either propose different specific locations without such impacts, or refile its application.

Two laydown areas and their disturbance areas were identified on the project mapping included as Attachment A-2 of the Construction Notice, and were previously studied as part of the project. Attached is an updated version of the project map, which identifies two staging areas that will be used as the laydown areas. The buffer around the proposed work shown with an “LD” represents the intended limits of disturbance.

As long as typical best management practices (“BMPs”) are utilized, no environmental issues are expected.
