Dear Ms. McNeil:

On May 15, 2014, Ohio Power Company (AEP Ohio) filed its Amended Application in Case Nos. 14-1693-EL-RDR and 14-1694-EL-AAM (PPA Rider Cases). On December 14, 2015, AEP Ohio, the Staff and other intervenors filed a Joint Stipulation and Recommendation to resolve the issues presented in the Amended Application and other matters (Stipulation) in the PPA Rider Cases. Pursuant to the Commission's March 31, 2016 Opinion and Order in the PPA Rider Cases (Opinion and Order), the Company's Amended Application was approved and modified, consistent with the terms of the Stipulation and the modifications made in the Opinion and Order.

To date, the Company has filed its quarterly PPA Rider updates in the PPA Rider Cases. In order to better implement the process outlined in the PPA Rider Cases and facilitate the annual audit proceeding envisioned by the Commission (Opinion and Order at 90), the Company is resubmitting its quarterly updates (the identical updates as previously filed) in two new dockets for: (1) the 2016 (partial year) through 2017 audit period, and (2) the 2018 audit period. Going forward, the Company will initiate a new docket each year and file its corresponding quarterly updates in that docket. Enclosed are the previously-filed quarterly updates for the 2018 audit period.

Thank you for your attention to this matter.

Regards,

/s/ Steven T. Nourse

Re: *In the Matter of the Application Seeking Approval of Ohio Power Company's Proposal to Enter into an Affiliate Power Purchase Agreement for Inclusion in the Power Purchase Agreement Rider*, Case No. 14-1693-EL-RDR; *In the Matter of the Application of Ohio Power Company for Approval of Certain Accounting Authority*, Case No. 14-1694-EL-AAM

Dear Attorney Examiners:

On May 15, 2014, Ohio Power Company (AEP Ohio) filed its Amended Application in this proceeding. On December 14, 2015, AEP Ohio, the Staff and other intervenors filed a Joint Stipulation and Recommendation to resolve the issues presented in the Amended Application and other matters (Stipulation). Pursuant to the Commission's March 31, 2016 Opinion and Order in this proceeding (Opinion and Order), the Company's Amended Application was approved and modified, consistent with the terms of the Stipulation and the modifications made in the Opinion and Order.

In accordance with the directives in the Opinion and Order, AEP Ohio previously submitted its compliance tariff relating to the Power Purchase Agreement (PPA) Rider effective on April 5, 2016. On May 2, 2016, the Company filed an application for rehearing that, among other things, contemplated a modified PPA Rider based on certain conditions and discussed that the rider could potentially be converted to being bypassable.

On November 3, 2016 the Commission issued its Second Entry on Rehearing granting the Company's rehearing request to further modify the PPA Rider and Stipulation to exclude the Affiliate PPA and confirming the ongoing inclusion of net costs in the PPA Rider. In the Second Entry on Rehearing, the Commission directed AEP Ohio to defer, "without carrying charges, any OVEC costs incurred for the period of June 2016 through December 2016, with recovery of such costs to occur beginning with the first billing cycle of January 2017 and continue over the 12 months of calendar years 2017. The Commission also directed that the rider remain nonbypassable.

Accordingly, the Company submits its updated PPA Rider to be effective with the first Billing Cycle 1 of July 2018. The updated PPA reflects the over/under-recovery of expenses for the months of January, February and March 2018 and forecast costs for July through September 2018. In accordance with the Second Entry on Rehearing the Company included the balance of the revised 2016 costs commencing with the first billing cycle of January 2017 and for the 12 months of calendar year 2017. In the December 1, 2018 filing, the Company requested that the forecasted under recovery of the 2016 costs be collected from January through March 2018. The Company includes the final true-up of the 2016 costs with the June 1, 2018 filing. The filings include a FAC-style rate reflecting both the prior quarter reconciliation to actual results and projections for the next/future quarter.

Pursuant to the process established in the Opinion and Order (at pages 89-90), the updated PPA Rider rates will become effective unless the Staff raises issue prior to the billing cycle during which the quarterly adjustments are to become effective.

Thank you for your attention to this matter.

Respectfully Submitted,

//s/ Steven T. Nourse
