<b>Transmission Line Project</b>	)	

**DIRECT TESTIMONY OF  
RONALD M. HOWARD, JR.  
ON BEHALF OF  
AEP OHIO TRANSMISSION COMPANY, INC.  
IN SUPPORT OF THE  
STIPULATION AND RECOMMENDATION**

1 **Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

2 A. My name is Ronald M. Howard, Jr. and my business address is 700 Morrison Road,  
3 Gahanna, Ohio 43230.

4 **Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?**

5 A. I am employed by American Electric Power Service Corporation (“AEPSC”) and provide  
6 services to AEP Ohio Transmission Company, Inc. (“AEP Ohio Transco” or the “Company”)  
7 as an Ohio Transmission Line Siting Specialist Sr.

8 **Q. WOULD YOU PLEASE DESCRIBE YOUR EDUCATIONAL AND**  
9 **PROFESSIONAL BACKGROUND?**

10 A. I received a Bachelor of Science degree in Chemical Engineering with an Environmental  
11 Specialty from The Ohio State University. I have worked with state and federal  
12 regulatory processes since 1993 and have sited linear corridors since 2003. I joined  
13 AEPSC in 2014 as a Transmission Line Siting Specialist Sr. I am responsible for the  
14 siting of Ohio transmission projects for AEP Ohio Transco.

15 **Q. WHAT ARE YOUR RESPONSIBILITIES AS A TRANSMISSION LINE SITING**  
16 **SPECIALIST?**

17 A. I am responsible for the development of and adherence to the Ohio Power Siting Board  
18 siting process and work closely with a diverse siting team, including project management,  
19 engineering, environmental, permitting, right-of-way, and public outreach.

20 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?**

21 A. The purpose of my testimony is to describe and support the Stipulation and Recommendation  
22 (“Stipulation”) (incorporated by reference into this testimony and attached as Attachment A)  
23 entered into by AEP Ohio Transco and the Staff of the Ohio Power Siting Board (collectively,  
24 the “Signatory Parties”) to resolve the issues in this case and filed on June 11, 2018. The

1 Signatory Parties recommend that the Ohio Power Siting Board (“Board”) issue a Certificate  
2 of Environmental Compatibility and Public Need for construction and operation for the  
3 Project along the Preferred Route, as identified in the Company’s December 13, 2017  
4 Application (“Application”) and subject to the conditions further described in the Stipulation.  
5 This testimony demonstrates that: (1) the Stipulation is a product of serious bargaining among  
6 capable, knowledgeable parties; (2) the Stipulation does not violate any important regulatory  
7 principle or practice; and (3) the Stipulation, as a whole, will benefit customers and the  
8 public interest.

9 **Q. DO YOU SPONSOR ANY EXHIBITS AS PART OF YOUR TESTIMONY?**

10 A. Yes. I am sponsoring and attaching Joint Exhibit No. 1, the Stipulation and  
11 Recommendation reached with the Board Staff in this case, as part of my testimony.

12 **Q. WHAT ARE THE MAJOR PROVISIONS OF THE STIPULATION?**

13 A. AEP Ohio Transco plans to rebuild approximately 4.8 miles of the existing Berlin-Ross  
14 69 kilovolt (kV) transmission line in Springfield Township, Ross County, Ohio, to 138  
15 kV standards. Once completed, the new transmission line would replace the existing  
16 Berlin-Ross 69 kV transmission line, which has been in service since 1926 and serves  
17 areas within Ross and Jackson counties. The 69 kV transmission line, consisting of wood  
18 H-frame structures, would be taken out of service. The new 138 kV transmission line  
19 would operate at 69 kV until 138 kV standards would be needed to serve customer load.  
20 The proposed facility is part of AEP Ohio Transco’s broader Ross-Jackson Area  
21 Improvements Project (Ross-Jackson Project). The goal of the Ross-Jackson Project is to  
22 modernize and improve the reliability of AEP Ohio Transco’s transmission system in  
23 Ross and Jackson Counties. This Project and the overall Ross-Jackson Project will  
24 enhance service for customers, decrease power interruptions, and speed recovery of

1 service when outages occur. Additional details can be found in the Application's Review  
2 of Need and Schedule, in Section 4906-5-03.

3 The proposed Project will be located in Springfield Township, Ross County. The Project  
4 will extend from the Ginger Switch Station to structure 235 of the existing Poston-Ross  
5 transmission line. A combination of steel structures is proposed for the Project.  
6 Structure type will vary based on topography, and all proposed structures are anticipated  
7 to average 100 feet tall. Figure 2-1 in the Application shows the Project vicinity,  
8 substation interconnection points, and the Preferred and Alternate Routes identified by  
9 AEP Ohio Transco.

10 **Q. WHAT CRITERIA HAS THE BOARD USED IN REVIEWING AND**  
11 **APPROVING STIPULATIONS AMONG SIGNATORY PARTIES TO A**  
12 **PROCEEDING?**

13 A. My understanding is that a stipulation must satisfy three criteria: (1) the stipulation must  
14 be a product of serious bargaining among capable, knowledgeable parties; (2) the  
15 stipulation must not violate any important regulatory principle or practice; and (3) the  
16 stipulation must, as a whole, benefit customers and the public interest.

17 **Q. DOES THE STIPULATION REPRESENT A PRODUCT OF SERIOUS**  
18 **BARGAINING AMONG CAPABLE, KNOWLEDGEABLE PARTIES?**

19 A. Yes, it does. All parties to the Stipulation (i.e., the Board Staff and the Company, who are  
20 the only parties to the case) were represented by experienced, competent counsel. Also,  
21 the parties to the Stipulation regularly participate in proceedings before the Board and are  
22 knowledgeable in regulatory matters. All parties were invited to participate in settlement  
23 discussions regarding the Stipulation. All parties were provided the draft Stipulation and  
24 given an opportunity to further engage in settlement discussions. Therefore, the

1 Stipulation represents a product of serious bargaining among capable, knowledgeable  
2 parties.

3 **Q. DOES THE STIPULATION VIOLATE ANY IMPORTANT REGULATORY**  
4 **PRINCIPLES AND PRACTICES?**

5 A. No, it does not. Based on my experience with the regulatory process and review of the  
6 Stipulation, I believe that the Stipulation is consistent with, and does not violate,  
7 regulatory principles and practices in Ohio. On the contrary, the Stipulation is designed  
8 to comply with the requirements of Revised Code 4906.10, which provides the basis for  
9 decision granting or denying a certificate.

10 **Q. DOES THE STIPULATION BENEFIT CONSUMERS AND THE PUBLIC**  
11 **INTEREST?**

12 A. Yes, it does. The Stipulation, which provides for the construction of the Project on the  
13 Preferred Route, benefits consumers insofar as the Project will help ensure that increased  
14 demands for electricity are met in the future and that existing service reliability is  
15 strengthened and enhanced throughout the area. The Project will also produce tax  
16 revenues for the local community. The Stipulation also benefits the public by requiring  
17 AEP Ohio Transco to comply with numerous conditions to minimize environmental,  
18 sociological, cultural, and other impacts to the area.

19 **Q. DID AEP OHIO TRANSCO TAKE INTO ACCOUNT THE PUBLIC INPUT IN**  
20 **ITS DELIBERATIONS?**

21 A. Yes. AEP Ohio Transco has worked very closely with affected residents to ensure that  
22 their concerns were taken into consideration when determining the Preferred Route.  
23 Details regarding AEP Ohio Transco's public information program for this Project are set  
24 forth on pages 11 and 12 of the Application and incorporated herein.

1   **Q.    IS IT AEP OHIO TRANSCO’S POSITION THAT THE STIPULATION MEETS**  
2       **THE   THREE-PART   TEST   REGARDING   CONSIDERATION   OF**  
3       **STIPULATIONS AND SHOULD BE ADOPTED BY THE BOARD?**

4   **A.**    Yes, it is. The Stipulation is reasonable and should be adopted by the Board to resolve  
5       the present proceeding.

6   **Q.    DOES THIS CONCLUDE YOUR TESTIMONY?**

7   **A.**    Yes it does.

8

## **CERTIFICATE OF SERVICE**

In accordance with Rule 4901-1-05, Ohio Administrative Code, the OPSB's e-filing system will electronically serve notice of the filing of this document upon all parties of record and the administrative law judge on this 12th day of June, 2018.

### STIPULATION AND RECOMMENDATION

---

#### I. INTRODUCTION

AEP Ohio Transmission Company, Inc. (“AEP Ohio Transco” or the “Applicant”), and the Staff of the Ohio Power Siting Board (“OPSB Staff”) (at times, collectively referred to as the “Parties”) submit and recommend this Stipulation and Recommendation (“Stipulation”) for adoption by the Ohio Power Siting Board (“Board”). This Stipulation is intended by the Parties to resolve all matters pertinent to Applicant’s proposed Ross-Ginger Switch 138 kV Transmission Line Project (“Project”).

AEP Ohio Transco plans to rebuild approximately 4.8 miles of the existing Berlin-Ross 69 kilovolt (kV) transmission line in Springfield Township, Ross County, Ohio, to 138 kV standards. Once completed, the new transmission line would replace the existing Berlin-Ross 69 kV transmission line, which has been in service since 1926 and serves areas within Ross and Jackson counties. The 69 kV transmission line, consisting of wood H-frame structures, would be taken out of service. The new 138 kV transmission line would operate at 69 kV until 138 kV standards would be needed to serve customer load.

The proposed facility is part of the Applicant’s broader Ross-Jackson Area Improvements Project (Ross-Jackson Project). The goal of the Ross-Jackson Project is to modernize and improve the reliability of the Applicant’s transmission system in Ross and

Jackson Counties. This Project and the overall Ross-Jackson Project will enhance service for customers, decrease power interruptions, and speed recovery of service when outages occur. Additional details can be found in the December 13, 2017 Application's ("Application") Review of Need and Schedule, in Section 4906-5-03, which the Parties incorporate by reference herein.

The proposed Project will be located in Springfield Township, Ross County. The Project will extend from the Ginger Switch Station to structure 235 of the existing Poston-Ross transmission line. A combination of steel structures is proposed for the Project. Structure type will vary based on topography, and all proposed structures are anticipated to average 100 feet tall. Figure 2-1 in the Application shows the Project vicinity, substation interconnection points, and the Preferred and Alternate Routes identified by AEP Ohio Transco.

This Stipulation is the product of serious bargaining among capable and knowledgeable parties. The Parties have each participated in negotiations. This Stipulation has been signed by the Applicant and OPSB Staff (collectively, "Signatory Parties"). Each of the Signatory Parties was represented by experienced counsel who regularly practice and participate in proceedings before the Board.

The Stipulation will benefit customers and the public interest. In the Stipulation, the Applicant has made commitments (as more fully described below) to comply with OPSB Staff conditions to minimize adverse impacts associated with the Project. The Stipulation does not violate any important regulatory principle or practice. The Project is more fully described in the Application. This Stipulation results from discussions between the Parties, who agree that it is supported by adequate data and information and is therefore entitled to careful consideration by the Board.

Accordingly, the Parties recommend that the Board issue a Certificate of Environmental Compatibility and Public Need (“Certificate”) for construction and operation of the Ross-Ginger Switch 138 kV Transmission Line Project, as identified in the Application, and subject to the conditions set forth in this Stipulation.

## **II. STIPULATIONS**

### **A. Recommended Findings of Fact**

The Signatory Parties agree that the record in this case, which consists of the Application, any supplemental or related information, and the Staff Report of Investigation, contains sufficient probative evidence for the Board to find and determine, as findings of fact, that:

- (1) AEP Ohio Transco is an Ohio corporation and a wholly-owned subsidiary of AEP Transmission Company, LLC, which is a Delaware limited liability company.
- (2) The proposed Ross-Ginger Switch 138 kV Transmission Line Project is a “major utility facility,” as defined in Section 4906.01(B)(1) of the Ohio Revised Code.
- (3) On August 30, 2017, the Applicant filed a pre-application notification letter for a Certificate to rebuild a portion of the existing Berlin-Ross 69 kilovolt (kV) electric transmission line in Springfield Township, Ross County, Ohio as a 138 kV line, initially energized at 69 kV, pursuant to O.A.C. 4906-3-03(A).
- (4) On September 13 and October 3, 2017, the Applicant filed its proof of publication of public notice to property owners and affected tenants of the date of the public informational meeting held pursuant to O.A.C. 4906-3-03(B)(2).

- (5) On September 18, 2017, the Applicant held a public informational meeting regarding the Project.
- (6) On December 13, 2017, the Applicant filed the Ross-Ginger Switch 138 kV Transmission Line Project Application.
- (7) On January 3, 2018, the Applicant filed supplemental Application information.
- (8) On February 12, 2018, the Director of Rates and Analysis for the Public Utilities Commission of Ohio issued a letter of compliance regarding the Application to the Applicant. On April 10, 2017, the Applicant filed proof of service of the certified application on local officials pursuant to O.A.C. 4906-3-07.
- (9) On March 7, 2018, the Applicant filed proof of timely notification to property owners and affected tenants of the date of the public informational meeting held pursuant to O.A.C. 4906-3-03(B)(2).
- (10) On March 8, 2018, the Administrative Law Judge issued an Entry setting the effective date for the application to March 8, 2018, scheduling local public and adjudicatory hearings in this matter, ordering AEP Ohio Transco to notice the hearings, and establishing a procedural schedule for the filing of lists of issues and testimony.
- (11) On March 27, 2018, the Applicant filed proof of publication and notice regarding the date, time, and location of the public hearing and adjudicatory hearing, including proof of notice of the public hearing and adjudicatory hearing to affected property owners and elected officials, in substantial compliance with O.A.C. 4906-3-09(A).

- (12) On May 18, 2018, OPSB Staff filed its Report of Investigation (“Staff Report”).
- (13) On June 4, 2018, a local public hearing was held at the Chillicothe and Ross County Public Library, Main Library Annex, in Chillicothe, Ohio.
- (14) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine the basis of the need for the proposed facility, as required by Section 4906.10(A)(1) of the Ohio Revised Code.
- (15) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine the nature of the probable environmental impact of the proposed facility, as required by Section 4906.10(A)(2) of the Ohio Revised Code.
- (16) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine that the Preferred Route contained in the Application, as filed by the Applicant on December 13, 2017, as supplemented January 3, 2018, represents the minimum adverse environmental impact, considering the available technology and nature and economics of the various alternatives, and other pertinent considerations, as required by Section 4906.10(A)(3) of the Ohio Revised Code.
- (17) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and its Staff to determine that construction of the Project located on Applicant’s Preferred site is consistent with plans for expansion of the regional power grid and that it will serve the interests of electric system economy and reliability, as required by Section 4906.10(A)(4) of the Ohio Revised Code.

- (18) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine that the Project will comply with Chapters 3704, 3734, and 6111, of the Ohio Revised Code and all rules and standards adopted under Sections 1501.33, 1501.34 and 4561.32 of the Ohio Revised Code, as required by Section 4906.10(A)(5) of the Ohio Revised Code.
- (19) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine that the proposed facility will serve the public interest, convenience and necessity, as required by Section 4906.10(A)(6) of the Ohio Revised Code.
- (20) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine the proposed facility's impact on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929 of the Ohio Revised Code that is located within the Preferred Route and Alternate Route of the proposed Project, as required by Section 4906.10(A)(7) of the Ohio Revised Code.
- (21) Adequate data on the proposed Ross-Ginger Switch 138 kV Transmission Line Project has been provided to the Board and OPSB Staff to determine that the facility incorporates maximum feasible water conservation practices, considering available technology and the nature and economics of the various alternatives, under Section 4906.10(A)(8) of the Ohio Revised Code. Due to the fact that the facility will not require the use of water for operation, Section 4906.10(A)(8) of the Ohio Revised Code is not applicable to certification of

the Project.

- (22) The information, data and evidence in the record of this proceeding provide substantial and adequate evidence and information to enable the Board to make an informed decision on the proposed Ross-Ginger Switch 138 kV Transmission Line Project.

**B. Recommended Conclusions of Law**

The Signatory Parties further agree that the record in this case contains sufficient probative evidence for the Board to find and determine, as conclusions of law, that:

- (1) Applicant, AEP Ohio Transco, is a “person” pursuant to Section 4906.01(A) of the Ohio Revised Code.
- (2) The proposed Ross-Ginger Switch 138 kV Transmission Line Project is a “major utility facility” as defined by Section 4906.01(B)(2) of the Ohio Revised Code. Applicant’s Application, filed on December 13, 2017, and supplemented January 3, 2018, complies with the requirements of Ohio Adm. Code 4906-5-01, *et seq.*
- (3) The record establishes the need for the proposed Ross-Ginger Switch 138 kV Transmission Line Project as required by Section 4906.10(A)(1) of the Ohio Revised Code.
- (4) The record establishes the nature of the probable environmental impact from construction, operation and maintenance of the proposed Ross-Ginger Switch 138 kV Transmission Line Project as required by Section 4906.10(A)(2) of the Ohio Revised Code.

- (5) The record establishes that the proposed Ross-Ginger Switch 138 kV Transmission Line Project, if conditioned in the Certificate as recommended by the Parties, represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations, as required by Section 4906.10(A)(3) of the Ohio Revised Code.
- (6) The record establishes that the proposed Preferred Route for the Ross-Ginger Switch 138 kV Transmission Line Project is consistent with plans for expansion of the regional power system, and serves the interests of electric system economy and reliability, as required by Section 4906.10(A)(4) of the Ohio Revised Code.
- (7) The record establishes that the proposed Ross-Ginger Switch 138 kV Transmission Line Project, if conditioned in the Certificate as recommended by the Parties, will comply with Chapters 3704, 3734 and 6111 of the Ohio Revised Code, and all rules and regulations adopted under those chapters, and under Sections 1501.33, 1501.34 and 4561.32 of the Revised Code, all as required by Section 4906.10(A)(5) of the Ohio Revised Code.
- (8) The record establishes that the proposed Ross-Ginger Switch 138 kV Transmission Line Project, if conditioned in the Certificate as recommended by the Parties, will serve the public interest, convenience and necessity, as required by Section 4906.10(A)(6) of the Ohio Revised Code.
- (9) The record establishes the impact of the proposed Ross-Ginger Switch 138 kV Transmission Line Project on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929 of the Ohio Revised

Code that is located within the Preferred Route and Alternate Route of the proposed Project as required by Section 4906.10(A)(7) of the Ohio Revised Code.

- (10) The record establishes that the proposed Ross-Ginger Switch 138 kV Transmission Line Project incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives required by Section 4906.10(A)(8) of the Ohio Revised Code.

**C. Recommended Conditions of the Certificate of Environmental Compatibility and Public Need**

- (1) The facility shall be installed on the Applicant's Preferred Route, utilizing the equipment, construction practices, and mitigation measures as presented in the Application filed on December 13, 2017, and supplemented January 3, 2018, and further clarified by recommendations in the Staff Report.
- (2) The Applicant shall conduct a preconstruction conference prior to the start of any construction activities. Staff, the Applicant, and representatives of the prime contractor and/or subcontractors for the Project shall attend the preconstruction conference. The conference shall include a presentation of the measures to be taken by the Applicant and contractors to ensure compliance with all conditions of the certificate, and discussion of the procedures for on-site investigations by Staff during construction. Prior to the conference, the Applicant shall provide a proposed conference agenda for Staff review to ensure compliance with this condition. The Applicant may conduct separate preconstruction meetings for each stage of construction.

- (3) At least 30 days before the preconstruction conference, the Applicant shall submit to Staff one set of detailed engineering drawings of the final project design, including the facility, temporary and permanent access roads, construction staging areas, and any other associated facilities and access points, so that Staff can determine that the final project design is in compliance with the terms of the Certificate. The final project layout shall be provided in hard copy and as geographically-referenced electronic data. The final design shall include all conditions of the Certificate and references at the locations where the Applicant and/or its contractors must adhere to a specific condition in order to comply with the Certificate.
- (4) Within 60 days after the commencement of commercial operation, the Applicant shall submit to Staff a copy of the as-built specifications for the entire facility. The Applicant shall provide as-built drawings in both hard copy and as geographically referenced electronic data.
- (5) The certificate shall become invalid if the Applicant has not commenced a continuous course of construction of the proposed facility within five years of the date of journalization of the certificate.
- (6) As the information becomes known, the Applicant shall provide to Staff the date on which construction will begin, the date on which construction was completed, and the date on which the facility begins commercial operation.
- (7) Prior to the commencement of construction activities, the Applicant shall docket in the case file the PJM Interconnection supplemental upgrade ID number when it is assigned.

- (8) Prior to the commencement of construction activities, the Applicant shall docket their supplemental filing in their Long-Term Forecast Report to add this project.
- (9) At least 30 days prior to the preconstruction conference, the Applicant shall provide to Staff a complaint resolution procedure to address potential public grievances resulting from project construction and operation. The resolution procedure must provide that the Applicant will work to mitigate or resolve any issues with those who submit either a formal or informal complaint and that the Applicant will immediately forward all complaints to Staff.
- (10) At least 30 days prior to the preconstruction conference, the Applicant shall provide to Staff a copy of its public information program that informs affected property owners and tenants of the nature of the project, specific contact information of Applicant personnel who are familiar with the project, the proposed timeframe for project construction, and a schedule for restoration activities. The Applicant shall give notification to property owners and tenants at least 7 days prior to work on the affected property.
- (11) Prior to the commencement of construction activities in areas that require permits or authorizations by federal or state laws and regulations, the Applicant shall obtain and comply with such permits or authorizations, including any permits necessary for aviation clearance. The Applicant shall provide copies of permits and authorizations, including all supporting documentation, to Staff within seven days of issuance or receipt by the Applicant. The Applicant shall provide a schedule of construction activities and acquisition of corresponding permits for each activity at the

preconstruction conference.

- (12) The Applicant shall repair or replace agricultural field tiles damaged from this project, and the Applicant shall segregate excavated topsoil in agricultural fields and restore in its proper position upon backfilling.
- (13) The Applicant shall adhere to seasonal cutting dates of October 1 through March 31 for removal of any trees greater than or equal to three inches in diameter, unless coordination efforts with the Ohio Department of Natural Resources (ODNR) and the U.S. Fish and Wildlife Service (USFWS) allows a different course of action.
- (14) The Applicant shall contact Staff, the ODNR, and the USFWS within 24 hours if state or federal threatened or endangered species are encountered during construction activities. Construction activities that could adversely impact such plants or animals shall be halted until an appropriate course of action has been agreed upon by the Applicant, Staff, and the ODNR in coordination with the USFWS. Nothing in this condition shall preclude agencies having jurisdiction over the facility with respect to threatened or endangered species from exercising their legal authority over the facility consistent with law.
- (15) The Applicant shall not conduct mechanized clearing and shall not remove any stumps within 25 feet of any stream channel.
- (16) The Applicant shall provide a construction access plan for review prior to the preconstruction conference. The plan shall consider the location of streams, wetlands, wooded areas, and sensitive plant species, as identified by the ODNR Division of Wildlife, and explain how impacts to all sensitive

resources will be avoided or minimized during construction, operation, and maintenance. The plan shall include the measures to be used for restoring the area around all temporary access points, and a description of any long-term stabilization required along permanent access routes.

- (17) Prior to commencement of construction activities that require transportation permits, the Applicant shall obtain all such permits. The Applicant shall coordinate with the appropriate authority regarding any temporary or permanent road closures, lane closures, road access restrictions, and traffic control necessary for construction and operation of the proposed facility.
- (18) General construction activities shall be limited to the hours of 7:00 a.m. to 7:00 p.m., or until dusk when sunset occurs after 7:00 p.m. Impact pile driving, hoe ram, and blasting operations, if required, shall be limited to the hours between 10:00 a.m. to 5:00 p.m., Monday through Friday. Construction activities that do not involve noise increases above ambient levels at sensitive receptors are permitted outside of daylight hours when necessary. The Applicant shall notify property owners or affected tenants of upcoming construction activities including potential for nighttime construction activities.
- (19) The Applicant shall remove all temporary gravel and other construction staging area and access road materials after completion of construction activities, as weather permits, unless otherwise directed by the landowner. Impacted areas shall be restored to preconstruction conditions in compliance with the Ohio Environmental Protection Agency (Ohio EPA) General National Pollutant Discharge Elimination System permit(s) obtained for the

project and the approved Stormwater Pollution Prevention Plan created for this project.

- (20) The Applicant shall not dispose of gravel, or any other construction material, during or following construction of the facility by spreading such material on agricultural land. All construction debris and all contaminated soil shall be promptly removed and properly disposed of in accordance with Ohio EPA regulations.
- (21) The Applicant shall re-coordinate with the Federal Aviation Administration (FAA) and the Ohio Department of Transportation once final pole locations and heights are determined for this project. Additionally, the Applicant shall provide Staff with completed FAA 7460-1 forms. If the proposed pole locations and heights constitute a hazard to air navigation then further coordination with Staff.

### **III. EXHIBITS**

The Parties agree and stipulate that the following information has been filed in the docket and is to be marked and admitted into the record as exhibits of this proceeding and that cross-examination is waived thereon:

- AEP Ohio Transco Exhibit No. 1: Pre-Application Notification Letter filed on August 30, 2017
- AEP Ohio Transco Exhibit No. 2: Proof of Publication filed September 13, 2017
- AEP Ohio Transco Exhibit 3: Proof of Publication filed October 3, 2017
- AEP Ohio Transco Exhibit 4: Application filed December 13, 2017, as supplemented January 3, 2018, and certified as completed by the Board on

February 12, 2018

- AEP Ohio Transco Exhibit No. 5: Proof of Notification filed on February 21, 2018
- AEP Ohio Transco Exhibit No. 6: Proof of Notification filed on March 7, 2018
- AEP Ohio Transco Exhibit No. 7: Proof of Notification filed on March 27, 2018.
- AEP Ohio Transco Exhibit No. 8: Direct Testimony of Ronald M. Howard, Jr.
- Staff Exhibit No. 1: Staff Report of Investigation filed on May 18, 2018.
- Staff Exhibit No. 2: Prefiled Testimony of Jonathan Pawley.
- Joint Exhibit No. 1: This Stipulation.

In deliberating the merits of the Application and reasonableness of this Stipulation, the Signatory Parties encourage the Board to review and consider all evidence and exhibits submitted and admitted in this case.

#### **IV. OTHER STIPULATIONS**

- (1) This Stipulation is expressly conditioned upon its acceptance by the Board without material modification. In the event the Board rejects or materially modifies all or part of this Stipulation, or imposes additional conditions or requirements upon the Parties, each Party shall have the right, within thirty (30) days after the Board's order, to file an application for rehearing with the Board. Upon a grant of rehearing by the Board, each party shall have the right, within ten (10) days after the Board's order granting rehearing, to file a notice of termination and withdrawal of the Stipulation. Upon notice of termination and withdrawal of the Stipulation by any party, pursuant to the above provisions, the Stipulation shall immediately become null and void, and any party to the Stipulation shall be free to petition the Board or the Administrative

Law Judge for such additional process as may be necessary to address any of the remaining issues in this case. In such an event, a hearing shall go forward, and the Parties shall be afforded the opportunity to present evidence through witnesses, to cross-examine all witnesses, to present rebuttal testimony, and to file briefs on all issues.

- (2) The Parties agree and recognize that this Stipulation has been entered into only for the purpose of this proceeding. Each of the Parties agrees not to assert against another party in any proceeding before the Board or any court, other than in a proceeding to enforce the terms of this Stipulation, that party's participation in this Stipulation as support for any particular position on any issue. Each of the Parties further agrees that it will not use this Stipulation as factual or legal precedent on any issue, except as may be necessary to support enforcement of this Stipulation. The Parties request that the Board recognize that its use of this Stipulation in any proceeding other than this proceeding is contrary to the intentions of the Parties in entering into this Stipulation.

**WHEREFORE**, based upon the record and the information and data contained therein, the Signatory Parties recommend that the Board issue a Certificate of Environmental Compatibility and Public Need for construction, operation and maintenance of the proposed Ross-Ginger Switch 138kV Transmission Line Project as described in the Application filed with the Board on December 13, 2017.

Respectfully submitted on behalf of:
