**Re: Dominion Energy Ohio PIR 2428 Replacement Project,  
Case No. 18-515-GA-BNR**

Dear Ms. McNeal:

On April 17, 2018, the Ohio Power Siting Board ("OPSB") Staff issued a Report of Investigation approving Dominion Energy Ohio's ("DEO") Construction Notice subject to a number of conditions. Condition No. 4 addressed Staff's desire to ensure certain coordination with the Ohio State Historic Preservation Office ("OSHP") has occurred so as to address potential cultural resources at the project site. During the resolution of Condition No. 4 the Supplement to the Construction Notice was inadvertently not filed.

By this letter, Dominion Energy Ohio ("DEO") submits for filing the Supplement to Construction Notice. Construction of the pipeline commenced on June 11, 2018, for which DEO filed the notice on May 31, 2018.

Please feel free to contact me if you have any questions.

Sincerely,

Sally W. Bloomfield

**DOMINION ENERGY OHIO'S  
SUPPLEMENT TO CONSTRUCTION NOTICE**

---

On April 17, 2018, the Ohio Power Siting Board Staff issued its Staff Report, which contains the four conditions listed below:

1. Prior to the commencement of construction activities in areas that require permits or authorizations by federal or state laws and regulations, the Applicant shall obtain and comply with such permits or authorizations. The Applicant shall provide copies of permits and authorizations, including all supporting documentation, to Staff within seven days of issuance or receipt by the Applicant.
2. Prior to construction, the Applicant shall submit to Staff, for review and confirmation that it complies with this condition, a project construction plan that provides the specific locations of its laydown areas and is responsive to Ohio Department of Natural Resources (ODNR) concerns about state listed species and ecological areas of significance. If the specific laydown locations chosen appear to have additional adverse impacts, the Applicant shall either propose different specific locations without such impacts, or refile its application.
3. Prior to the commencement of construction, the Applicant shall obtain a coordination letter from the ODNR in regards to impacts to state and federal listed species and/or their suitable habitat, and shall coordinate with the ODNR and with Staff regarding compliance with the letter.
4. Prior to construction, the Applicant shall coordinate with the Ohio Historic Preservation Office with regards to the findings and recommendations of the cultural resources literature review to verify that further Phase I field work is not required for the protection of cultural resources along the project route including at bore entry and exit locations.

By this submission, Dominion Energy Ohio (“DEO”) incorporates the above conditions as a supplement to its Construction Notice filed April 2, 2018, and requests that this supplement be considered part of DEO’s application.

Respectfully submitted on behalf of,  
DOMINION ENERGY OHIO
