COMMENTS: I am contacting you to complain about the preferred route as illustrated in blue on OPSB Docket # 14-0469-EL-BTX. The illustrated route from the Eldean Substation (II) angles across my property to HH. My preference would be for DPL to use their alternate route that goes from II to KK to EE. My farm at 3480 Experiment Farm Road has been in the family for over 160 years and my request is to honor the existing property line that has been there for 160+ years rather than bi-secting the historic property. The DPL alternate route honors the property line. Angling the line across my property is not acceptable.

This foregoing document was electronically filed with the Public Utilities
